

## Playschool Opening Set

Burnsville Playschool will open on Tuesday morning, September 7. Playschool is for children 3 and 4 years of age who would like to participate in learning and fun activities with other children for 3 hours each morning.

Each Tuesday morning the children visit the Yancey County Public Library for "Children's Hour" with "Miss T".

Because registration is limited to 12 children, each child receives individual attention.

Eleven children are registered at this time. They are: Donald Banks, Reed Brown, Daniel Boone, Christopher Evans, Jodi Hicks, Christal Styles, Kent Anglin, Van Hensley, Brian Jones, Benjie Riddle, and Michelle Leigh Anglin.

Further information may be obtained by calling Mrs. Jess Styles at 682-2524.

### Briggs Endorsed By Opponents

Bruce Briggs, 39 winner of the August 17 Republican Primary for Congress, was endorsed for the 11th District Congressional Post by his two primary opponents on August 20, 1976. At a meeting in Fletcher, N.C., Briggs discussed the coming fall campaign with Ralph Ledford and Wait Sheppard, the two candidates Briggs defeated in the Primary. In separate statements, both Ledford and Sheppard pledged their full support for Briggs. Pictured [l.to r.] Briggs, Ledford, Sheppard.

Dear Yancey Countians:

We would like to extend a personal invitation to you and your family to our assembly facility here in Burnsville, on Monday, August 30th, at 7:30 P.M.

It will be an evening of entertainment, information, and refreshments for everyone.

Our location is in the Old Yancey County Co-Op Tomato Packing Plant.

Sincerely,

R.H. Scanlan

THE PLACE TO LOOK

As Mayland Technical Institute continues to expand its educational role in the tri-county area, the student financial aid program is experiencing an increasing demand from individuals who have a desire for education but lack the necessary financial support. In comparison with the previous year, expenditures for student aid increased more than 100%.

Local funds represented only about 3% of the total amount of student aid expenditures for the year. This small percentage is indicative of the persistent low level of local support for the student aid program. To operate the Work-Study programs this year, it was necessary to transfer funds from bookstore receipts into the Trustees Scholarship Fund.

The primary problem in the student aid program, then, is the lack of an adequate, stable source of local funds to be used to match state and federal monies and to award local scholarships to deserving students. Because state and federal funds are attached to the need concept, we have no scholarship funds available to recognize academic ability, character, leadership, etc. unless we experience an increase in local scholarship money.

Even with the local funds problem, we have a student aid program that is growing with the needs of the student body. And, as this program becomes more important to the school-as it will have

to-we must continue to maintain its capacity to meet the financial needs of deserving students.

The 1975-76 total expenditures for student aid amounted to \$102,751. The total number of 129 students were served with the average amount per student being \$797.00. Thirty-five of these students were from Yancey County.

### GED Exam Scheduled

The high school equivalency (GED) examination is usually administered at Mayland Tech on the second and fourth Thursday nights of each month at six o'clock and on the second and fourth Friday mornings of each month at 8:30. This schedule will vary according to school holidays. These time changes will be announced.

During the months of September and October, the test will be administered on Thursday nights: September 9, September 30, and October 21; On Friday mornings: September 10, October 1, and October 22.

The GED is a national test; and, upon successful completion of the battery of tests (English, natural science, social studies, literature, and math), the high school equivalency certificate is issued. The certification is recognized almost without exception by industry, agencies of the government, employers, col-

leges, and other organizations and institutions as the legal equivalent of a diploma from an accredited high school.

In order to qualify to take the GED, a person must be 18 years of age or older and not enrolled in public school. If a person is younger, he must have permission from proper school officials to take the exam. No person will be issued a high school equivalency certificate until he is 18 years of age.

If you are interested in taking the GED tests, please call Mayland Technical Institute at 765-7351 for additional information.

### Graduates From ASU

Appalachian State University conferred some 886 degrees recently during the university's 77th summer Commencement. Among the recipients were several Yancey County students. The degrees were awarded by ASU Chancellor Dr. Herbert W. Wey.

Graduates from Yancey County included the following: Ellen Cook Blair of Green Mountain, B.S. in cloth-textile merchandise; Iva Nell Buckner of Burnsville, SPEC in education/administration; Ann M. Schortinghouse of Burnsville; Diana Lynne Styles of Burnsville, M.A.-TCH in speech/pathology; Ronald Douglas Webb of Burnsville, M.A.-TCH in biology.

**SHOCKING!**  
Gardening experts point out that one of the commonest faults is mowing your lawn too seldom. In such cases the grass suffers a much greater shock because so much more is cut off at one time.
