supper. After the meal and clearing of the tables, they watched "Everybody Loves Opal" written by John Patrick. The play is a comedy featuring Martha Raye from TV's "MacMillan and Son". Also featured in the play were Ralph Foody, Hal Fletcher, and Andrea Ladik. ***

HOLIDAY ON ICE

Mrs. Campbell's accelerated English I and Mrs. Thomas's accelerated English II classes traveled to Asheville on Thursday, May 19, leaving school at 4:45 and stopping for supper at Hardee's. Then they went to the Civic Center to watch "Holiday On Ice". The show featured characters from Sesame Street. There was outstanding precision skating by all performers with a wide variety of routines from classical and jazz to acrobatic and comedy. Another surprising fact was that there were skaters in the show from North and South Carolina. ***

The group returned to school at 11:15 p.m. ***

Arthur Morgan School Students Conduct Energy Poll

Students from the Arthur Morgan School, Celso, conducted an "Energy Poll" recently in this area. Fifty-four percent of the people asked agreed to the on-the-spot interview and responses went like this:
1. To the question: Would President Carter's proposed increase in gasoline prices

make a difference in the amount of gas you use? The response was Yes-45%, No 45%, and Don't Know 10%.
2. To the question: Do you think that all this fuss about energy is necessary? The response was Yes 70%, No 26%, and Don't Know 4%.
3. If a nuclear power plant were proposed for this area, would you oppose it? 40% responded with Yes, 41% said No, and 19% said Don't Know.
4. Do you feel that President Carter's excise tax proposal is unfair to Detroit car manufacturers? Yes 35%, No 52%, and Don't Know 13%.
5. If gas gets to be \$1.00 per gallon will you minimize

your use? Yes 78%, No 17%, and Don't Know 5%.
6. Do you think that by the year 2000 most of the U.S. will have converted to solar or wind energy? Yes 68%, No 20%, and Don't Know 12%.
One of the questions asked was "What type of heating source do you use. The answer gave the following information: Wood-18%, Natural Gas-4%, Oil-55%, Coal-3%, Electric-19%, Other- less than 1%.

The average amount of gasoline purchased per week by the interviewees was 24 gallons. The questions for this energy poll were made up by the students themselves, and the poll was carried out as a class project. ***
