The Editor:

Our community isn't very large and on a still, quiet Sunday we can hear the chimes ring out from the Hayesville Methodist Church and also bells ringing from the other churches near by in the county.

We were very shocked Sunday morning when this quietness was interrupted about 9 a.m. by a bull dozer plowing up a newly cleared field and the loud sound continued until the mid-afternoon when the field was completed.

It was a very unwelcome sound in our community and although the land looks much nicer, it disturbed the day of rest and meditation that our community has always known as the Sabbath or the "Lord's Day."
