Andrews Seniors Make Annual Trip

SPECIAL TO SCOUT
By Tommy Pullium

We left Andrews at 3:00 Monday morning for Raleigh. On the way to Raleigh we stopped at the Morehead planetarium at the University of North Carolina where we ate lunch. From there we went on to Duke University where we toured the famous Duke Chapel. From Duke University we continued on to Raleigh, arriving about 3:00 at our motel.

We had from 3:00 to 6:00 to bowl and swim. After eating supper we went to the new legislature building for a night session. There we were recognized by our Representative, Herman H. West, in the House, and Senator Forsyth in the Senate. After leaving the state building we had a little free time to go bowling before going to bed.

Tuesday morning we were up at 6:00 ready to eat breakfast and continue our trip on to Washington. While in Washington we saw all the different state buildings. It would take too much space to tell of all that we did do. But the most impressive thing was visiting the different memorials of our famous forefathers--- Robert E. Lee, Abraham Lincoln, and George Washington.

After touring our Capitol on Tuesday and Wednesday, then came the big night we had all been looking forward to --- Wednesday. The boat ride down the Potomac river in a boat which would hold 3,000 students. There was dancing and just sitting for those who were tired. As I looked around there were more sitting than dancing. The boat took us to an amusement park where there were various rides.

On Thursday, our last day in Washington, we attended the changing of the guard at the tomb of the unknown soldier that

morning, and we were very impressed. Thursday afternoon was devoted to shopping for souvenirs and gifts to take back home.

Thursday night came the highlight of the trip. We got to attend a big league baseball game in the new baseball park in Washington, D. C. For most of us it was the first big league game that we had seen. There wasn't a person that didn't enjoy it. Friday morning at 6:00 we were up and ready to leave for home. On our way back we stopped at Thomas Jefferson's home in Monticello. Then we proceeded homeward and got into Andrews Saturday at 12:30. We were all tired and sleepy, but this trip will always be remembered.

TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS HARDTOP

IF YOU KNEW WHAT TINY LUND KNOWS ABOUT FORD DURABILITY... YOU'D BE OUT ENJOYING A '63 FORD

Ask Tiny Lund about Ford durability: He'll tell you how it helped him win America's toughest stock-car competition, the Daytona 500. Lund placed first in a Ford, with four other Fords right behind him for an unprecedented sweep of the first five places. Only the Fords were tough enough to stand the pace.

Greater durability is the reason Ford is able to offer a total-car warranty. Only a true total-performance car could offer as complete a warranty as this—with no strings attached:

"Ford Motor Company warrants to its dealers, and its dealers, in turn, warrant to owners as follows: That for 24 months or for 24,000 miles*, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will be made by the tire companies. Owners will remain responsible for normal maintenance services, routine replacement of parts, such as filters, spark plugs, ignition points, wiper blades, brake or clutch linings, and normal deterioration of soft trim and appearance items."

You can't put a long-term warranty like ours on a short-term car. The '63 Fords have a better warranty because they're built better than any Fords in history. You see evidence of this extra toughness in Ford's outstanding competitive wins this year. '63 Fords won the grueling Daytona, Riverside, and Atlanta 500's, and the demanding Pure Oil Performance Trials. Only cars with total performance could roll up so many big wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Remember: If it's built by Ford, it's built for performance... total performance.

*90 days or 4,000 miles, whichever comes first, for the 427 C.I.D. 4V or 8V and 289 C.I.D. 4V engines and related power train components
