

Young Mother Hurt Seriously In Auto Crash

DAYTON, Tenn. - A young mother was seriously injured when she was thrown from her car after being struck on the driver's side by an on-rushing car that had run through a red light at a residential intersection here Friday afternoon, July 26.

Mrs. Gib Roddy, 27, the former Glenda Ivie, daughter of Mr. and Mrs. Peyton G. Ivie of Murphy suffered dislocation and two slight fractures of her fifth and sixth cervical vertebrae, Mrs. Roddy's six year old daughter, Melinda, escaped serious injury but suffered from shock immediately following the accident. She was thrown to the floor of the car.

The impact knocked the handle off the door on the driver's side, throwing Mrs. Roddy from the spinning auto. The car came to rest on her dress, only a fraction of an inch from her body. Her dress had to be cut away so that she could be moved.

The young daughter was reported to have gathered her mother's pocket book and shoes, and in her shock would not give them to anyone immediately following the accident.

Mrs. Roddy was rushed to a Dayton hospital where X-rays were made.

Mr. Roddy and her father carried the X-rays to Chattanooga where it was determined that she suffered injuries of the vertebrae.

Mrs. Roddy was put in traction in Dayton and Sunday was transferred to Memorial Hospital Chattanooga where she was put in a cast from the top of her head to her hips. According to her father, she will have to wear the cast for 2 1/2 months.

She was expected to be released from the hospital on Wednesday.

The car that struck Mrs. Roddy was driven by a Mr. Sutton, age 20, also of Dayton. He has been charged with reckless driving.

A telephone company employee working nearby saw the accident occur. He got to Mrs. Roddy first. She asked him not to move her because she said her neck hurt. After she was thrown from the car, she hit on her neck, throwing her knees into her face.

Andrews Natives' Home Featured

ANDREWS -- The Montgomery Herald recently featured the historic home, over 100 years old, now owned by Mr. and Mrs. Vincent Love natives of Andrews.

As part of the East Bank, West Virginia, Centennial Celebration the Love's residence was the setting for a Silver Tea, sponsored by the Upper Kanawha Valley Woman's Club, which was attended by hundreds, including many State officials.

Articles from the East Bank area, antiques and other reminders of the olden days were on display.

The Loves purchased the home in the fall of 1961 and immediately began working to restore the house to its original setting of the early 1820's. It conforms to the usual pattern of the 1820's with oblong facade and wing in the rear. The roof is very low, having no space between the shove lines and above the five shutter trimmed windows of the second floor and the hand-carved cornice which ornaments the front and ends of the house.

Cherokee Countians will be pleased to know that Mrs. Love's costume, of which she received much praise and compliments came from Murphy; also Mr. Love's favorite limousine, a model A, was proudly displayed by him and was bought in this county.

NEW NATIONAL FOREST CAMPGROUND OPENS - The Tusquittee Ranger District, U. S. Forest Service, opened the gates to the public on the new Hiwassee Lake Campground at 5:00 p.m. Thursday, July 26, 1963. Although the opening was not announced until Thursday afternoon the public use was surprising over Sunday. An estimated 500 people visited the new area on Saturday and Sunday. While all did not camp or picnic it is expected that each person was anticipating an early return to use the wonderful facilities located on the

Campground.

The personnel of the U. S. Forest Service in Murphy are tremendously proud of their new campground and justly so. They have worked very hard to get the area ready for use this summer and richly deserve all the praise that they can get for a job well done. This brand new campground on beautiful Lake Hiwassee stands as a monument to all concerned in the recreation program on the Nantahala National Forest. (Scout Foot)

U. S. Forest Service Brings Recreation To Cherokee County

MURPHY - Just four miles east of Murphy, on the Joe Brown Highway stands a beautiful rock based, wooden sign which states "Hiwassee Lake Campground - Nantahala National Forest." From this point a brand new scenic forest road leads you two miles along the shore of Lake Hiwassee to the beautiful 50 unit campground just completed by the U. S. Forest Service on the

Nantahala National Forest. This campground has facilities for 300 campers or picnickers. There are three completed loop roads with 16 to 18 camping units on each loop. (Shown at Left) In addition, each loop has toilet facilities and a deep well water pump.

The U. S. Forest Service has spent approximately \$120,000.00 to construct this camping area on the lake. Twenty additional camping units are under construction at the present time and expected to be ready for use by late fall. A picnic area adjacent to the lakeshore has been surveyed and will be constructed in the near future.

It should do much to put Murphy and Cherokee County on the tourists map." Bunch Nugent, Forest Ranger said.

The Editor

Dear Mr. Editor:

Last week the Reverend W. J. Thompson of the First Baptist Church in Murphy drove eight miles out on Hanging Dog to visit our family. On arrival he found the foot bridge flooded and to get across to the house he did not hesitate to remove his shoes and socks, roll up his pants legs and wade across the bridge.

This to me seemed a little out of the ordinary and my family and I want to express our thanks to Mr. Thompson. It seems to me if there were more preachers like this in the community I know that this world would be a better place in which to live.

Bryan M. Dorsey
Murphy, N. C.

At the end of the new Hanging Dog Road near the old Hiwassee Cemetery, the North Carolina Wildlife Resource Commission will construct a parking lot and boat access area to the lake. It is anticipated that work will begin on this soon.

"All in all this area is a wonderful addition to Cherokee County and should mean a great deal to the people here, both economically and for their own enjoyment. If everyone will help protect and care for our new campground

Dr. Breland was highly enthusiastic about the new campground, and seemed to be thoroughly enjoying his outing with his young son, Coleman. When asked for his reaction to the new Forest Service campground Dr. Breland replied, "I think it is wonderful, I had no idea you were creating such a large well-planned campground as this."

Although it rained during the night Dr. Breland stated that he really had a fine time and that anyone who had son should carry him camping on the new area as often as possible.
