

# Cherokee County ASCS News

By L. L. Kisselburg

At the regular county committee meeting Oct. 4, the county committee extended the seeding date for sowing grasses and legumes for pasture or hay through October 18. This means that the county office can issue approvals and purchase orders through Oct. 18 and it also means that the purchase order for the materials will expire October 18. Farmers having a need for conservation materials should be advised to contact the county office and get in their request by this date.

The county committee and county manager will attend an Area Meeting in Asheville on Oct. 15 and 16, for the purpose of indoctrination of new committeemen and get their recommendations for needs of changes to make the programs ASCS administrators better if possible. Since we have two new county committeemen this year, Paul Lance and Earnest Cook, we trust that they will gain some knowledge and information by attending this meeting. The county office will be understaffed while the manager and committee are attending the meeting. Mrs. Bonnie Kimsey will be in charge of the office while we are away.

We are calling your attention to notice that all purchase orders for seed with the exception of rye, will expire Oct. 18, and the county office does not have the authority to extend the date for these orders to be filled.

## Bellview 4-H Club Plans Campaign And Party

BELLVIEW - Plans for a Red Cross campaign and a Halloween party were finalized at a meeting of the Bellview 4-H Club Monday night, Oct. 14, in the Bellview Community Building.

Marilyn Anderson, president, led the discussion of plans for upcoming projects.

The Halloween party was set for Oct. 30 at the Community Building.

Twenty-six club members, parents and leaders attended the meeting.

We are glad to inform you that Mrs. Evelyn Sudderth, who is a patient in Womens Hospital in Chattanooga, Tenn. where she underwent surgery is improving satisfactorily and will soon be out of the hospital we hope. We wish her a speedy recovery, hoping she will be well soon.

We would like to pay our respects to T. L. Martin and Victor Raxter, who have been county and community committeemen for many years, were not re-elected due to the fact that they are over 70 years of age. I feel confident that the delegates to the convention would have re-elected Mr. Martin and Mr. Raxter since they have been men who took a lot of interest in ASCS for the farmers in Cherokee County while they were committeemen and they have assured me they will continue to do so, even though they are no longer on the committee. They will be remembered by their friends for this service they have rendered in the past.

## WITH WOMEN IN CLAY

By Justine Rozier

Home Demonstration Club women in Clay County will hold their annual Achievement Day Tuesday, Nov. 6, at Truett Memorial Church in Hayesville.

Mrs. Frank Phillips of Spruce Pine, will be the guest speaker. She will give a report on her trip last year to Melbourne, Australia to attend a meeting of the Associated Country Women of the World. She has colorful slides, which she will show to illustrate her talk.

Club women are asked to bring any hand made items they would like to exhibit --- sewing, knitting, or other craft items are acceptable. The meeting begins with registration at 9:30 and includes a covered dish luncheon.

You haven't seen anything until you've seen Mrs. Elmer Greene's "hogwasher". This unique garment resembles overalls, but has a skirt. It is made of heavy denim, and has all the usual pockets and loops found on overalls. Mrs. Greene finds it equally suitable for wear while weeding strawberries or making draperies.

Mrs. Ruth Hawkins brought to her club meeting recently a smooth dried quail which had been her grandmother's darning egg. It was extremely light, but strong, and of a perfect shape for darning the toe of a sock. We're still trying to find out its exact name.

Last month while discussing home laundry problems, we realized that some women are still using water too warm in washing sweaters. For the best luck in washing wool sweaters, use water which feels chilly to your hands, and a liquid detergent. You will find several detergents, especially designed for woolen available in Hayesville. Always wash wool sweaters by hand, and gently squeeze the water out of them. Don't wring.

Home Demonstration Club women from Clay County who attended the Citizenship Conference in Murphy recently were: Mrs. Glenn Swanson,

Mrs. Elmer Greene, Mrs. Fred O. Scroggs, Mrs. Bass Hyatt, Mrs. A. C. Murray, Mrs. Charles Barnard, Mrs. Wiley McGlamery, Mrs. Mae Hollifield, Mrs. Alma Swaim, and Mrs. Cline McClure, and Home Economics Extension Agents Freida Dean Morgan and Justine Rozier.

ANOTHER GIANT VEGETABLE, believe it or not. These are squash. They were grown by Mrs. Willis Johnson of Murphy. She said that they were known as candy roasters, a big squash originating in Germany.

THESE EXCELLENT TOMATOES picked last week at Claude Stiles farm in Peachtree prove that some of the finest tomatoes of the year can be grown in this area well into October. Some of the finest fruit of the year is being harvested now on farms where growers have done a good job of disease and insect control.

## Clay ASCS News

By June C. Waldroup  
Office Manager

HAYESVILLE - Farmers in Clay County find the programs administered by the ASC county committee of much value in their farming operations.

According to the records in the ASCS office approximately 900 persons are classified as farmers in the county. Of this number practically all take part in one or more of the ASCS programs at some time during the year. Cost share through the Agricultural Conservation Program is applied for and approved each year on an average of 70% of these farms.

Federal funds to share the cost with farmers to carry out conservation practices on their farms total approximately \$45,000 each year.

Since the inception of the Feed Grain Program in 1961, payments to farmers to divert their land from the production of corn and wheat to a conservation use have averaged \$38,000 annually.

Payments under the Soil Bank CR program are \$8,000 annually. Wool growers receive incentive payments on their products of \$500 each marketing year.

Tobacco growers receive an average of \$100,000 each year

from the sale of their product. The control program administered by the ASC committee is directly responsible for the high income received from the sale of tobacco. Each year approximately \$20,000 is allocated to the county to pay the cost of administering the ASC programs.

We in ASCS think of these programs in terms of conservation achieved, reduction of crops in surplus and, in the case of wool an incentive to produce more of a produce of which there is not enough to meet the demand.

But looking at these figures, dollar and cent wise, we cannot take them too lightly. In a county the size of Clay and with its comparatively small cash income - this is big business.

Some of the finest corn ever grown for silage on Billy K. Howell's farm in Martin's Creek was harvested recently. The tractor and harvester were furnished by the John C. Campbell Folk School.
