Last week the bankruptcy court ordered a sale on the entire stock of merchandise. and advertised that the sale would begin Tuesday at 10:00 a.m. and continue daily until all the stock had been sold, with reductions of up to 50 per cent in prices on the store's goods.

When the time arrived on Tuesday to begin the sale, bargain hunters were lined up around the store, and with only a limited crew here to conduct the sale, only a part of the crowd was admitted into the store at one time.

Those who didn't get in during the first 'push' voiced complaints as they waited outside in the cold, but a look inside showed that two checkout counters were swamped with customers.

Inside, the shoppers found that the reduced prices were not marked on the goods, and most people just gathered up what they wanted and head-ed for the check-out stand, not knowing what the price of the articles was until their
