Pyrite Crystal  
(Cont'd From Front)

Mrs. Pate accompanied Mrs. Helton to Chicago to make the presentation.

E. Leland Webber, director of the museum told the women in accepting the gift that the pyrite crystal would be the largest specimen at the museum. The geologist said he had never heard of another crystal as large.

Pyrite is a common mineral burned in making sulfuric dioxide and sulfuric acid.

Mr. Hughes was a resident of Route 4, Murphy. His wife, Ruth, is the owner and operator of Ranger Beauty Shop on Route 4.

The Unique Christ

(This article was written by the Herald of Hope and sent to us by Mrs. Milly Ravencroft of Marble, N. C.)

His birth was contrary to the laws of life. His death was contrary to the laws of death.

He had no cornfields or fisheries, but he spread a table for 5000 and had bread and fish to spare.

He walked on no beautiful carpets nor velvet rugs, but he walked on the waters of the Sea of Galilee and they supported him.

He held but arms of mercy and did good to all. Yet, when he died, few men mourned.

However, a black crepe, so to speak, was hung over the sun. Men trembled not for their sins, but the earth beneath them shook under the load.

Just three years he preached his gospel. He wrote no book; built no church house; had no monetary backing. Yet, after 1900 years, he is the one central character of human history - - the pivot around which the events of the ages revolve, and the only regenerator of the human race.

Was this merely the son of Joseph and Mary, who crossed the world's horizon 1900 years ago, and spilled His blood on Calvary's hill for the redemption of mankind?

What thinking man can but exclaim: "My Lord and my God!"

Card Of Thanks

The husband and family of the late Robbie Hughes wish to express our sincere gratitude for the multitude of kindnesses shown during our tragic hour of need.

Mrs. J. D. Burch, Mrs. Harry Dickey and daughter, Cynthia, and Mrs. Bob White spent Monday in Atlanta.
