1965 Spring Kitchen Carnival

In a special kitchen modernization program, Murphy Power Board will pay cash bonuses to customers on original purchases and installation of appliances.

This kitchen modernization program starts Thursday, May 6, and will run for a limited time. John H. Bayless manager of Murphy Power Board said in announcing the program today.

Manager Bayless said the bonuses will be awarded with the purchase of these electric appliances: Electric Dishwasher - \$10.00; Electric Air conditioner - \$10.00 - Electric Water Heater - \$20.00; Electric Freezer - \$10.00; Electric Range - \$15.00.

Bonuses, Bayless said, will be paid directly by Murphy Power Board to the customer buying and installing one or more of these appliances. To collect the bonus, the customer, he said, need only take his sales receipt to the electric system's office.

Local appliance dealers and national manufacturers and distributors are cooperating in this spring appliance campaign.

"A modern kitchen is an asset to every home," Bayless said. "We know that many of our customers need only an appliance or two to make their kitchens fully modern and all-electric, and we're giving them a special chance to complete the job."

Local appliance dealers have stocked a full supply of electric kitchen appliances, Bayless said. Many of these, he added, are being offered at special prices during the promotion.

Also during this program, Bayless pointed out, Murphy Power Board will make every effort to help its customers plan a modern home kitchen.

BUILT-IN CONVENIENCE

The built-in electric range gives you the utmost in cooking convenience. Surface units are at the spot most suitable for you. Perhaps near the sink where you prepare fresh vegetables for cooking. The oven may be located near your mixing center—or wherever it's most likely to save steps.

Both units give you the same even, controlled heat as other electric ranges. They cook your meals quickly and efficiently while sparing you many a step.

See your dealer for a built-in electric range today—for built-in beauty and convenience in your kitchen.

Free Planning Services

To help you plan a modern built-in kitchen, we offer you the services of trained home economists. There's no charge for this service.
