## 300 N.C. Churchmen Hold **Civil Rights Conference**

By: Jean McCaffry:

RALEIGH- Uniting together for a common understanding of the civil rights issue, more than 300 North Carolina churchmen representing 17 denominations met in Raleigh for the first Statewide Churchmen's Conference on Civil Rights. The meeting convened in the Memorial Auditorium on September 21. Eminent men in the field of

civil rights addressed the assembly. Each aspect of the problem (Education, Employment, Housing, etc.) was analyzed by two men who were specially chosen for their excellence in that particular field. In each case, one man approached the problem on the national scene and the other on the local scene. As an expression of the fellowship shared by these churchmen, they participated in a public rally which included prayers, scripture readings and speeches. Luncheons and social gatherins continued the atmosphere of fellowship

and free discussion. As a background for a discussion of the role of the churches in the area of civil rights, experts in the field of government addressed the assembly. The Deputy Attorney General of the United States, Dr. Ramsey Clark, explained the new voting rights law in relation to the South.

The keynote speaker, Dr. H. Shelton Smith of Durham, Professor Eneritus of Duke University, presented the background of the issue. He focused his attention on the history of Negro voting rights in North Carolina.

Clarifying the respective roles of State and Federal governments, David Seeley of Washington, Director of the Equal Educational Opportunity Program, addressed the members. Encouraged by the overwhelming success Operation Head Start, in which the Federal government and the local communities cooperated so closely, he emphasized his belief that "Nothing can be accomplished except on the local level." ployment and housing pro-blems were discussed by the Director of Federal Employment Program of the President's Committee on Equal Employment Opportunities and by the Special Assistant to the Deputy Administrator of the Housing and Home Finance Agency in Washington, respectively. North Carolina representatives considered the same from the local perspective.

Dr. Robert W. Spike of New York, Executive Director of the Commission of Religion and Race of the National Council of the Churches of Christ in the U.S.A. predicted that effective demonstrations are over. Dr. Spike asserted that the success of the civil rights program "now lays at the doorstep of the church." He re-iterated the necessity of community involvement.

Highlighting the public rally was the speech of the Honorable Brooks Hays from the White House, Consultant to the President and Arthur Vanderbilt, Professor of Government at Rutgers University.

Attending from Clay County were Sister Cecilia and Sister Phyllis, from the Sister's Clinic in Hayesville.

The conference was sponsored by the North Carolina Council on Religion and Race which is uniting together the North Carolina Council of Churches, the Department of Interracial Co-operation of the Baptist State Convention, the Catholic Diocese of Raleigh, the North Carolina Association of Rabbis, and the North Carolina Association of
