America, Land Of The Free And Home Of The Brave

By: Dee Whitt Sharp

ANDREWS - I am proud to be an American Citizen, and to live in this great Country of America. Why?

Because at a time when Communism is trying to take over the world, to rule with an iron hand their own ideas and notions. It is also a time when we should be putting into use the Christian ideas and principles upon which our forefathers founded America.

Do we really care about our American Heritage and Freedom?

First, let us take a look at the situation as it exists here at home.

We ride through town after town here in Western North Carolina and never see the American Flag or the State Flag rippling in the breeze, except at the U.S. Post Offices and Federal Buildings. (There is one flag at the Primary School Building at Andrews.) What about our high schools, city halls, industrial and manufacturing plants, and local government buildings that do not display the flag?

Is it that they do not have a flag pole or flag? Is it indifference? Is it that they have never given it a thought? Or is it that they just don't care?

To me, there is nothing any more beautiful and patriotic than to see the National and State Flags rippling against the blue sky, as a colorful symbol of liberty, freedom, justice, and glory.

I shall always remember when I was in the seventh grade at the Andrews Elementary School, about sitting in the classroom during World War II, and watch Old Glory as she would wave back and forth in the breeze at the Teas Extract Company.

Then too, I recently talked with several high school students from Andrews, and asked if they ever said the Pledge of Allegiance to the Flag in high school?

"I Pledge Allegiance to the Flag of the United States of America and to the Republic for which it stands, One Nation under God, Indivisible, with

Dee Whitt Sharp

Liberty and Justice for All." The answer I received was no. I asked, do you ever sing America, The Star Spangled Banner, or any of the other Patriotic Songs in high school? Again, came the answer, no. One other question I asked, was, Do you have the American Flag on display in any of your classrooms or in assembly?

Answer was, that there was one, and it was in the vocational agriculture classroom.

This was indeed a surprise and a great shock to me, so I questioned some of the elementary school teachers as to whether they did this in the lower grades. The answer they gave was that they never did hold assembly, and it was up to each individual teacher to teach about the flag and American Patriotism.

Is this same thing happening in all our schools and colleges across the country? Have the schools forgotten what Patriotism is, and what it means to the youth of our country? After all, they will be our future leaders.

If this be true, is there any wonder that America, this great country of ours is falling apart. That college students are burning their draft cards, and that anti-war marchers, demonstrations, and racial violence is everywhere. Though these youth may be in a minority group, they are still helping to tear down the morality, ideas and principles upon which this country was founded.

"THE AMERICAN CREED" I believe in the United States of America as a Government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign Nation of many sovereign States; a perfect Union, one and inseparable; established upon those principles of freedom, equality, justice, and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies.

Abraham Lincoln said in his famous Gettysburg Address, that this nation, under God shall have a new birth of freedom and that government of the people, by the people, for the people, shall not perish from the earth.

Each American Citizen, be he or she, great or small, young or old, and especially veterans should be interested in our American Heritage. We should be proud of our forefathers who founded America and for the Christian ideas and principles in which they believed.

Service men have always fought, bled, and given their lives around the Globe for the cause of American Freedom. For this same cause, our armed forces are fighting in Viet Nam, giving up their home land, their homes, families and friends for you and me.

Do you appreciate what they are doing? Let us not forget, it is always possible that our Freedom too, can be lost. Communism is on a steady march to weaken, divide, and destroy America.

Therefore, I challenge you as an individual, each and every school and church across America to help spark the fire of Patriotism, to help keep alive the Christian Ideas and Principles upon which this Country was founded, and to help boost the morality of our Armed Forces in Viet Nam, and around the World by helping to keep Old Glory waving.
