Cherokee County's new six-member Board of Commissioners was sworn in Monday morning and held its first meeting minutes later. The Democratic majority, provided by a special legislative act which gives two votes to the chairman, wasted no time in asserting its power as it dispensed patronage jobs to the party faithful.

It was a foregone conclusion that a Democrat would be elected chairman because of the procedure set up by the special act passed by the last General Assembly and the three Repubmade no effort to licans contest this.

W.T. Moore, the only holdover from the last Board, was nominated for the office of chairman by Ray Sims. Carlyle Matheson then made a motion that Moore be elected unanimously. Matheson's motion was accepted. Matheson

The Republicans made no effort to oppose the election of L.L.Mason as the new county attorney. Mason was nominated by Barton and his election was unanimous.

When other offices came up for consideration, the minority made an effort to elect persons of their choice. The Democrats nominated

Mack Gibson to serve as janitor, painter and plumber for the Courthouse and County Jail and the Republicans nominated Ben Beavers. A three-three tie resulted and Moore, as chairman, cast an extra vote to elect Gibson. Under the new law, the

Simonds said, "if it's going to go like this for the next four years, there's no point in us (Himself, Matheson and Luther Dockery) even sitting here." He went on to express the hope that politics could be laid aside and the entire body could work toge-ther for the good of the county. Clarence Hendrix was

The public is invited to see these films and rescue squad members, policemen, members of the volunteer fire departments, city and county offcials, and Civil Defense members should attend.

In both of these films the efforts of government, mili-tary and voluntary, relief agencies to warn and evacuate those in danger, to carry out emergency actions in the midst of natural disasters, and conduct recovery operto

ations afterwards will be shown. One of these films, "Though

The Earth Be Moved" tells the dramatic story of the Good Friday, earthquake of 1964 which struck Alaska with a force equal to 10 million atomic bombs of the size that leveled Hiroshima. It took 115 lives, cost more than half a billion in damages, left whole cities helpless and thousands homeless in the wake of a shock and fire and seismic sea wave.

The other film, "A Hurr-icane Called Betsy" shows the most devastating, unpredi-ctable hurricane of the decade. It swept out of the Caribbean on a 3,000 mile trip, leaving a trail of destruction through the Bahamas, Miami, the Florida Keys, along the Gulf of of Mexico to New Orleans and Baton Rouge.

In Law Office

FRANKLIN-- Former Superior Court Judge Guy L. Houk, 69, was found shot to death in his law office last Friday afternoon. It was ruled suicide by Coroner E.W.

Fisher. Houk resigned his judgeship in September, citing ill health as the reason. He had been appointed by Gov. Dan K. Moore when Judge George Pa-tton resigned in 1965. Houk was defeated in bid for reelection in the May Democratic Primary.

wood about 1480. Postmaster Ray noted that use of the stamp for the sending of greeting cards assures first-class handling. That means the the cards will be forwarded if the addressee has moved or will be returned if there is a return address. This is the fifth in a series of holiday stampsand the Postal Service expects it to be another best seller. The intil print order was for one billion, two hundred million in the state that adopted the stamps.

The Postmaster estimated that 30,000 of the stamps will be sold locally.

The stamp design was unanrecommended to imously Postmaster General Lawrence F. O'Brien by the Citizens Stamp Advisory Committee which passes on all stamps.

According to the Postmaster's testimony, money orders were made out for amounts such as \$100 and \$96 and their accompanying stubs were only \$1. He said Crawford cashed the money orders at a Murphy bank.

Ray said Crawford approached him while he was investigating the shortage and showed him some money order stubs, saying "I guess this is what you want."

He urged Crawford to bring the money back and cooperate with the postal inspectors. Ray said Crawford's affairs were in order when he left the post office on November 26, 1965.

On cross-examination by Lentz, Ray said he personally paid out of his own pocket a \$31.45 shortage for stamped envelopes bought by Murphy Public Schools and not entered in the cash book.

The figures released by the school show 87,508 pounds of tomatoes sold for \$5,711.44 and the costs totalled \$434.93. A total of 2,533 man hours were involved and the school indicated about four full-time workers are needed per acre. The Folk School expressed its thanks to Four Square Co-
