New Hunting Regulations Announced

RALEIGH, N.C.--The North Carolina Wildlife Resources Commission today announced proposed changes in state hunting regulations for the 1967-68 hunting season. The proposals, which are subject to revision after a series of public hearings, will be considered for final adoption at the next regular Commission meeting on June 13.

One of the regulation changes proposed at today's meeting would separate the deer hunting season in western North Carolina from the bear, boar and raccoon hunting seasons. In the western counties, where the hunting of deer by dogs is prohibited, the proposal would close the bear, boar and raccoon seasons from November 27 until December 9, inclusive, during the period when open seasons on deer are in progress.

Another Commission proposal would establish a statewide bag limit for bear of one daily, two in possession and two for the season. This bag limit, which is now in effect in the western part of the state, would be extended to cover hunting in the east in an effort to conserve dwindling populations of black bear in North Carolina.

As of April 27, a year ago, Postal Savings were discontinued, and no deposits were accepted by the Postal Office Department. Certificates whose anniversary dates have been reached since last April 26 have earned their final interest payment, Ray said.

Five Injured In Series Of One-Car Accidents In County

A total of five persons were injured in three one-car accidents in Cherokee County in the past week.

Charles Walton Moore, 19, Rt. 1, Murphy, suffered minor cuts and bruises last Thursday night at 11:20 in front of the Peachtree School. A passenger in Moore's car, William Morris Moore, 17, Rt. 1, Murphy, suffered a broken nose and cuts and bruises.

Patrolman Patt Miller said Moore came out of the upper Peachtree Road and turned left at the school. He lost control of the car and it ran into the bank on the righthand side of the road.

Moore's car was a total loss. No charges were filed. Three persons were injured, one seriously, Saturday evening at 6:50 on SR 1314 two-tenths of a mile north

of the junction with NC 294. A car driven by Thomas Martin Stiles, 19, Rt. 4, Murphy, ran off the road and travelled 324 feet before crashing into the Shoal Creek Bridge.

A passenger in the car, Euclid Pearson Campbell, Rt. 4, Murphy, suffered serious head injuries and is in a Chattanooga hospital. Campbell was thrown out of the car.

Stiles received cuts on the eyes and nose. His brother, Michael Dale Stiles, 15, received minor cuts and bruises. Stiles told Miller his brakes locked. He was charged with speeding. Miller said the car was equipped with seat belts but none of the belts were in use.

The car, owned by the driver's father, Mitchell Oliver Stiles, was a total loss.

Four men escaped injury in another wreck on SR 1314 Sunday afternoon. This one occurred 1.2 miles north of the junction with NC 294.

The car left the road on the right hand side and travelled almost 500 feet before it overturned. The car, owned by James William Cordell, Rt. 2, Culberson, was extensively damaged.

Miller said the investigation in this accident has not been completed.

Don't Forget To Change Your Clock Saturday Night!

North Carolinians will act in unison with most of the nation when they move their clocks ahead one hour on Saturday night. Daylight Saving Time becomes effective at 2 a.m. Sunday.

The change Saturday night will mean a one-hour loss of sleep which will be gained in the fall when the state will revert to Standard Time and the clocks are turned back one hour.

Neighboring Georgia and Tennessee will also observe Daylight Saving Time this summer.

The change has been talked about for several years, but the General Assembly has

always defeated efforts to go on Daylight Time.

This year, however, the Uniform Time Act was passed by Congress and all states are required to observe the "fast" time except those which specifically exempt themselves. An exemption move was made in the General Assembly several weeks ago, but it was rejected.

The change will bring sunrise one hour later and sunset one hour later than if Standard Time was observed. The purpose is to provide an extra hour of daylight at the end of the day when it is believed it will be more useful to most people.
