John B. Love

Love To Be

At Open House

Late last year, Company President, E. B. Shaw, announced the promotion of John B. Love to the new post of Executive Vice-President at American Thread.

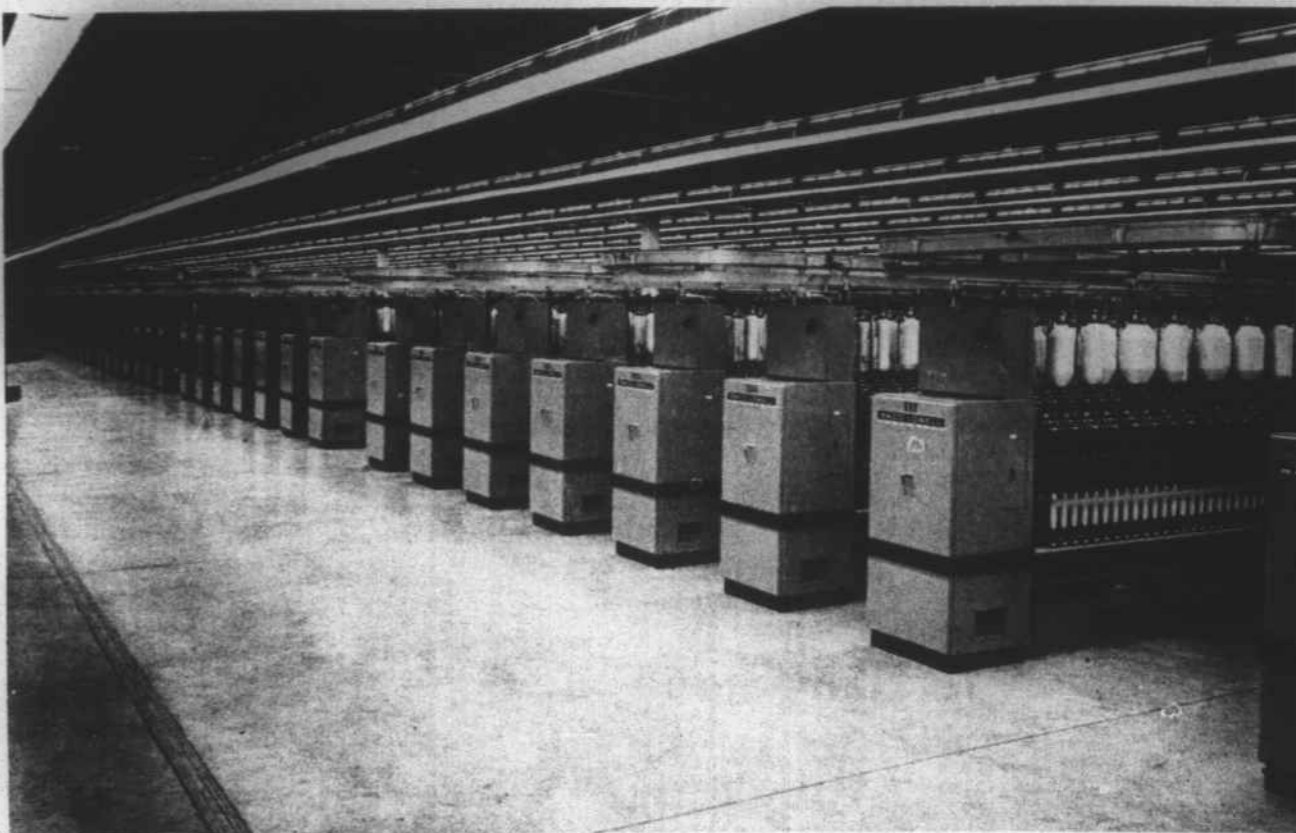

Since occupying his new position, Love, who had been serving as Manufacturing Vice-President, has assumed overall direction of the company's day-to-day operations.

Love, a native of Baltimore Maryland, joined American Thread twenty years ago as a management trainee at the firm's Willimantic, Connecticut Plant. After advancing through the manufacturing organization to Plant General Manager at Willimantic, Love moved to the New York headquarters where, in 1966, he became Manufacturing Vice-President and was elected to the Board of Directors.

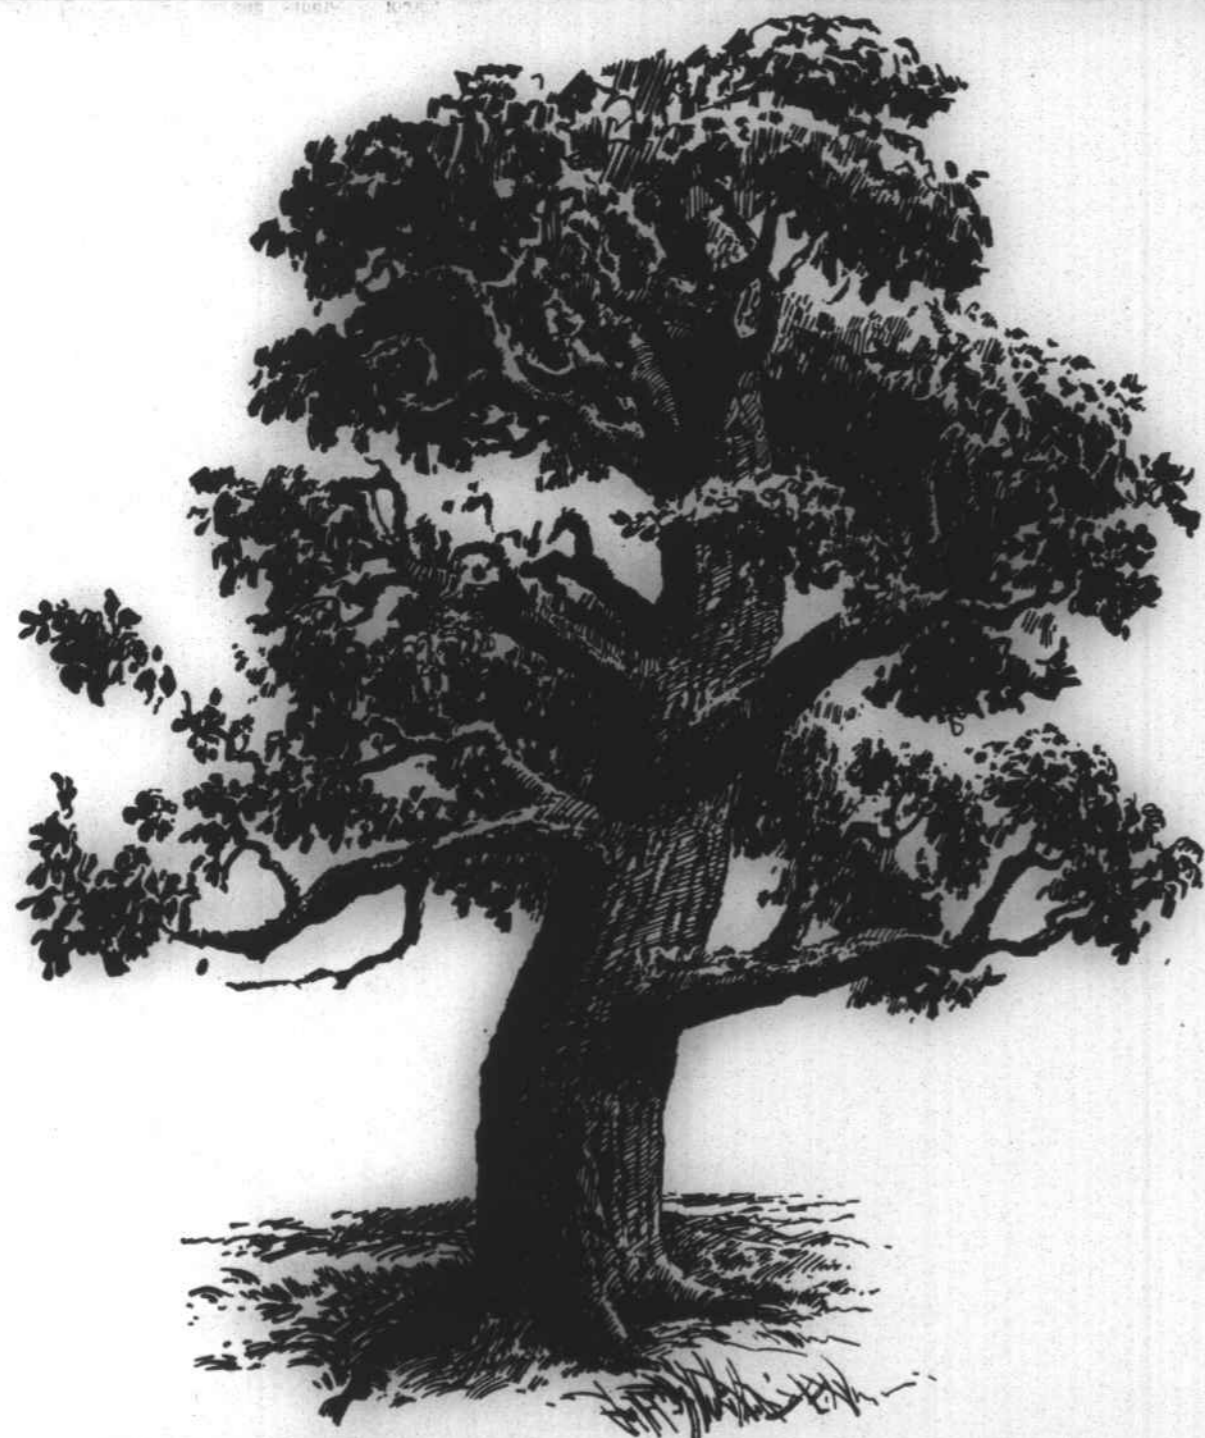

Within the company he's as respected for his leadership ability as he is on the outside for his skill on the golf course.

COMBING - Removes short fibers. Lays long fibers parallel

SPINNING - Draws roving down to yarn size. Gives yarn slight twist.

**"THE LOFTY OAK
FROM A SMALL ACORN GROWS"**

WELCOME

Like The Acorn,
