Last year at least one fire broke out in an American home every 49 seconds! Every 13 minutes fire claimed a life! Of the 12,000 plus fire fatalities, more than half occurred in homes and one-third of those were children!

These are sobering statistics and of concern to all of us. That is why The Travelers Insurance Companies are making it possible for you, whether you are a present customer, a friend, or hopefully, a new customer to purchase an approved 2 1/2 pound dry chemical Walter Kidde fire extinguisher through Fire House, Inc., West Acton, Mass., for less than half the cost of comparable extinguishers on the market today.

It is designed specifically for home, auto, and marine protection. Light in weight—less than five pounds fully charged—this dry chemical extinguisher has a range of ten feet, discharge time of ten seconds, puts out fires water can't stop, smothering them in seconds before they can spread. The fine, odorless, non-toxic chemical is easily swept up or vacuumed after use, won't harm pets, delicate fabrics or electrical equipment. It is refillable at any local fire extinguisher company. Allow two to three weeks for delivery.

Approved by Underwriters' Laboratories; Complies with FAA and ICC Regulations; U.S. Coast Guard Approved

Remember... it takes only 10 seconds to control a small kitchen fire... provided they are the first ten seconds! We hope you'll take advantage of this offer by filling out the order form below and returning it to us, with check or money order, made payable to Fire House, Inc.
