It's Time For A Change

My opponent says he is for continued progress in industry and roads. Didn't he forget to also tell you that he tried to have one of the roads pass by a business that he is part owner of? Is this working for the citizens of the counties in the district or for personal gains?

My opponent introduced a bill during the last term of the Legislature for Clay County to elect 7 members of the Board of Education. With this figure Macon and Cherokee should have about 20 members. Even the Chairman of the Democratic Party didn't know about or approve of this bill until I notified him of it. Together we worked to have it withdrawn.
