Your Weekly Horoscope

March 11 through March 17, 1971

ARIES (March 21 - April 19): Efforts will perhaps be scattered in week ahead, Ari baby. You may have uneasy feeling that hidden forces are in league against you. Not so, love. So no fair becoming paranoid about your situation. It WILL improve. Postpone binding commitments. Try a little more smooching with loved one if you would like present relationship to improve. Love-making like virtue can be its own reward.

TAURUS (April 20 - May 20): Friend or member of family will want to unload problem in your lap. Play role of wailing wall. You do so well in this department. Offer empathy. (Others tend to offer merely sympathy in exchange for details.) However, hold off on giving advice unless pressed for it. You should hear from old friend (flame?) before week is over. Visit. Let work wait. It will be there after visitor leaves.

GEMINI (May 21 - June 20): Temptation in week ahead to play role of Smarty Pants. So your mind works just a little quicker than the rest of the mob. So your friends and family already know. Is it really necessary for you to remind them day after day? Week after week? Year after year? Careless remark on last day could cause you to lose your balance. And for one who insists on walking the wire without a net, this could prove fatal.

CANCER (June 21 - July 22): Personal problems will occupy your mind during most of coming week. Solutions are at hand. But don't expect them to be handed to you encased in lifetime plastic. In truth, solutions may appear somewhat ramshackle. But Moonbaby knows only too well that appearances are often most deceiving. Listen with your heart.

LEO (July 23 - August 22): Heart will rule your head in week ahead, Leo baby. As usual. You will no doubt operate on principle that the heart has reasons which the mind knows not. Family member may hassle you by mid-week. But you will not budge. Self preservation will be unusually strong. As week ends associate will do your bidding. Willingly. And quietly. So no need to wave your royal scepter about.

VIRGO (August 23 - September 22): Tensions tend to diminish in week ahead, Virg baby. Oh, Happy Day! New relationship with member of opposite sex will spark your interest. Keep fire extinguisher handy. Week should end on note of cheer. Perhaps in note from one far away.

LIBRA (September 23 - October 22): Mood on upswing, Libra. Health and emotional outlook will be unusually good. One close to you may try to force opinion on you by mid-week. Listen patiently, but do your own bidding. Good week to branch out careerwise. Secret yummy scheduled for last day. Enjoy, enjoy.

SCORPIO (October 23 - November 21): Much headway to be made by Scorp in week ahead. Gain from association with Taurus individual. However, you, dear Scorp must pull your share of the load. No fair resting on your laurels, attractive as they may be. Take care of your health. Avoid fatigue. Get into the sack early every night if possible. And SLEEP. No messing around, you hear?

SAGITTARIUS (November 22 - December 21): After last week, Sag would be wise to hole up in a nice quiet spot and let the world go away. Good time for a mini-vacation. If this is impossible then perhaps Sag can have a wee spree on the town by mid-week. No? Well then lock yourself in the bathroom and soak your tensions away.

CAPRICORN (December 22 - January 19): Events in coming week directly related to past actions. If you played last week, then this week you pay. However, if you kept your nose to the old grindstone, week ahead will be one for gathering in the rewards. Read words to Taurus carefully for extra message.

AQUARIUS (January 20 - February 18): Watch your diet in week ahead, love. Good time to start program of regulated exercise. Begin moderately. Do not overdo. Buy ten pounds of cottage cheese, lock the liquor cabinet and then swallow the key.

PISCES (February 19 - March 20): Travel is highlighted in week ahead, Pisces. Guard that which you prize. Best not to trust new associate until this person has proven worthy of trust. Loved one needs attention. You've been slacking off in this department and if you don't make tracks soon, another may steal sweetie away.
