### Pancake Day Set

Pancakes, with bacon, sausage and all the trimmings, will be served from 7 a.m. until 8 p.m. Saturday at the Hayesville School Cafeteria by the United Methodist Mens Club. The Hayesville community merchants are furnishing a lot of the supplies for this project.

There will be no price set for the pancakes. Come eat all you want free and any contribution will be appreciated. The proceeds will be used to pay on the indebtedness of the recreation area which is approximately \$800.

In the past the pancake days have been very successful. The money has been used for this project, and it has given the men a good opportunity to work together and have fellowship and a chance to prove they are real chefs when it comes to flipping the pancakes.

### Youths Work For

#### Easter Seal Drive

Saturday a group of the Junior Hi United Methodist Youth conducted Lily Day in Hayesville where they collected \$34.27 for the Easter Seal Program. These contributions are used for crippled children and handicapped adults.

Fontana Village is open year round, but the recreation units and the cottages are only open April 1st through October 31st.

and treasurer. A large number of adult volunteers along with a youth group and the Boy Scouts will assist in this crusade.

The two local radio stations, week have agreed to use materials to make people more aware of the importance of this crusade. Two workshops have been planned to get out materials. Sunday April 25th has been set as Cancer Crusade Sunday in the local churches. Materials will be given to leaders in the various churches for this.

April is Cancer Control Month. I would like to pass on some interesting aspects from your American Cancer Society. Then ask you to think of a giant wheel...a "Wheel of Life". The center of the wheel...the ultimate goal, the conquest of cancer.

Each of the spokes represents a different approach to that goal through almost every known scientific discipline. They seek answers to questions such as: What is the

nature of Cancer? What are its causes? How can it be detected in its early stages? What properties of cancer cells make them vulnerable to which chemicals? How can we use the body's natural immunization mechanisms to counteract cancer? and each of these points of inquiry is broken down into areas too complex for the

untrained mind to grasp fully. But something we ALL can understand is that this research involves a lot of money, some of which must come from our contributions. So please keep the "Wheel of Life" turning. Fight cancer with a checkup and give as generously as possible when you are contacted.
