MRS. WINDER LEFT TO-DAY.
Mr. Winder Now Manager of Hocking Valley's Coal Fields.

Mrs. John H. Winder left Raleigh to-day for Columbus, Ohio, which city she will in future make her home.

Mr. Winder, her husband, was recently elected general manager of the Hocking Valley Railroad's coal mines and coal transportation business, with headquarters at Columbus. This is a position of much importance and great responsibility, and Mr. Winder's election to it is not only a high compliment to him, but a due recognition of his experience and ability as a practical railroad man.

Though Raleigh people rejoice in the good fortune and the honor that has thus come to Mr. Winder, they regret most deeply that his acceptance will prevent him and his charming wife from longer making Raleigh their home. When Mrs. Winder went away this morning, she carried with her the best wishes of almost the entire population of this city, for she is known and admired by people of all classes.

Attorney Douglas returned home this morning from Moore county court. He says there were no important cases tried during this week's term.

Mr. J. A. Mackethan returned to-day to his home in Fayetteville.

District Attorney C. M. Bernard, of Greenville, is here to-day.

Mr. Phillip Williams Avirett left last night for the South.

THE WESTMINSTER GAZETTE.

When Senator Cullom left the White House he said it was certain that the Senate will not pass the Cuban resolutions to-day and also said it was only a question of a few days when both houses would agree upon a resolution which would result in war.

PRESIDENT LIKES SENATE.

By Telegraph to The Times.
WASHINGTON, D. C., April 14.—The Fern and Mangrove are ordered to Norfolk to get supplies for the cruisers at Key West. The committee from the Senate consisting of Senators Allison, Aldrich, Gorman, Faulkner and Gray held a long conference with the President regarding the action of the Senate on the resolutions. The President is said to have requested that no action be taken until to-morrow. The President carefully analysed the resolutions of the House and Senate and expressed a preference to the latter. In the House there is a strong contrast of the meeting to-day and that of yesterday. Few members are on the floor and the galleries are deserted.

He Likes The President's Attitude for Honorable Peace.

By Telegraph to The Times.
WASHINGTON, D. C., April 14.—Senator Hoar declared that he approves what the President has done and what he has refrained from doing. GENERAL LEE'S TESTIMONY.
Made Public To-Day and Constitutes a Book of 650 Pages.

By Telegraph to The Times.
WASHINGTON, D. C., April 14.—The testimony of General Lee before the Senate committee on Foreign Relations was made public to-day and constitutes a book of six hundred and fifty pages. It includes not only the testimony taken since the Maine disaster, but taken before and running back a year or more. The statement which contains the greatest current interest is that of General Lee on the 12th when he said he was informed by a very good authority that the Spaniards had placed two rays of torpedoes just at the mouth of Havana Harbor within the past two months, and subsequent to the Maine disaster. That the switch is in a room in Moro Castle. He had no information as to the placing of torpedoes in the harbor before the Maine was destroyed, or regarding the purchase of them abroad by Spain. He had no reason to suppose the harbor was mined at all before the Maine disaster. General Weyler's letter led him to believe that mines were placed in the harbor previous to the Maine incident.

ARRANGING A COMPROMISE.
Senate and House Will Make Effort to Unite for Early Action.

By Telegraph to The Times.
WASHINGTON, D. C., April 14.—Senator Hoar will follow Senator Turner. The conservative Senators have decided to make a fight for the House resolutions, and will act in concert to that end. An effort is being made to have Senators of different views unite upon the majority report in order to secure early action. A conference looking to this end has been in progress all day. Senator Davis says he will push the Cuban resolutions with diligence and hopes for early action. Those who favor early action are disposed to hold continuous sessions if there is any disposition to delay by debate. The more radical men say they have votes enough to adopt the Turpie amendment recognizing the Cuban government. Those who think this possible seem to think the House and Senate will then compromise on substantially the majority resolutions of the Senate committee.

Judge W. S. O'B. Robinson, of Goldsboro, arrived in Raleigh on the early morning train.

DR. MCKEE MADE CHAIRMAN.
Executive Committee of the Central Hospital Met Last Night.

The Executive Committee of the Board of Directors of the Central Hospital, met last night in the office of the Superintendent, Dr. G. L. Kirby.

The only business of importance was the election of a member of the Executive Committee to succeed Capt. John R. Smith.

Dr. James McKee was elected as Capt. Smith's successor on the Executive Committee, and was later elected chairman of the Board of Directors.

The monthly routine work of approving vouchers was gone through with and the committee adjourned.

Speaking of the Asylum and its future this morning, a Director said that the recent resignations of Capt. Smith and J. Rowan Rogers were for no other purpose than to comply with the recent decision of the Supreme court, and that any suggestion that a political scheme had any connection with it was absurd. Mr. Johnson, who succeeds Mr. Rogers, will not be in Raleigh in the capacity of a Director until December next, when the Board holds its semi-annual meeting.

REACHED CARALEIGH MILLS.
Lillington Railroad Building Rapidly—Camp Moves To-morrow.

Mr. Bradshaw, who is overseeing the grading of the new railroad from Raleigh to Lillington was in the city to-day. He says the bed has now been completed as far this way as Caraleigh Mills, and the camp will be moved five miles south to-morrow. Seventy-six hands are now actively engaged in the work and the entire road will be ready for the rails by the 1st of July.

President John A. Mills said to-day that the rails had been ordered, but there is no way to tell how long a time will elapse before they arrive. He says it may be only four weeks, but will probably be between six and seven weeks.

Mr. Bradshaw says the road can easily be completed by the first of August, but it is not probable that the work will be so rapidly pushed.

A POWERFUL PRODUCTION.

Goethe's "Faust" is the announcement for Metropolitan Opera House Thursday night, April 19th. The young tragic actor, John Griffith, appears as Mephistopheles. The young actor is assessed by John Ray Palmer, as Faust. It was but a few years ago that young Griffith first ventured on a starring tour, and since then he has been more than kindly dealt with by the critics and the public. He is a sterling young actor, with real tragic ability, a good physique, and a voice as formidable as that of his old preceptor in the act, Thomas W. Keene. Mr. Griffith is not yet twenty-eight years old, but he has won much renown in various characters, and his impersonation of Mephistopheles has been conceded to be a better work than that of any other American actor who has appeared in the part. It is strong, masculine and vigorous, a good embodiment of evil triumphs, and shows the cunning that belongs to the character. His is a devil that is a diplomat as well as a bully, and the irony and biting sarcasm are delivered with a keen understanding. The staging of the play has received much attention from Mr. Griffith's managers, and a carload of special scenery, electrical and calcium accessories are promised. The company is a large and capable one.
