THROUGH A CAR WINDOW

Prisoner Slides Out and Runs to
Tail Timber

Asheville, N. C., Aug. 17.—An
Asheville gentleman who returned
to the city yesterday afternoon from
over the ridge tells of the daring es-
cape of a prisoner from the train on
which the Asheville man was a pas-
senger. It seems that an officer had
arrested two white men near Connally
Springs and was taking them to
Morganton when one of the prisoners
decided that he would not go to
jail and forthwith went out of the car
through an open window while the
train was going at a speed of thirty
miles an hour. When the officer
boarded the train he simply held the
men by the wrists and refrained from
handcuffing them. After the train
had gotten well under way one of
the prisoners sitting next to the
window suddenly whirled about, and
placing his feet in the window, went
through the opening with his back
to the aisle and his hands outstret-
ched.

The officer made a lunge for the
man, but the prisoner was too quick,
and after striking the ground on his
hands and feet and turning some-
ersu, he started for the tail timber.
The train was stopped after going
half a mile or such a matter, but the
officer in charge decided to let the
man in the woods take care of him-
self and proceed to Morganton with
the lone prisoner.

Those on the train who were
watching the officer and his prisoners
and who saw the man go through
the window rushed to the end of the
coach, expecting to see the daring
man stretch on the ground, but
he was running through the under-
brush towards the mountains like a
rabbit.

KILLED BY SHAFT.

Wiley C. Moye's Leg Beaten to
a Pulp.

Greenville, N. C., August 17.—
This morning a terrible accident oc-
curred here that cost a young man
named Wiley C. Moye his life. Mr.
Moye was a workman at the manu-
facture of the Building and Lumber
Company and also a stockholder in
the company. He was in the act of
passing by a planing machine in
motion, and stepping too near the
shaft the left leg of his pants was
caught by set screws. The rapid
motion of the shaft drew his leg
around it and before the machine
could be stopped his limb from the
ankle nearly to the knee was horri-
bly mangled, bones and flesh being
beaten into a pulp.

Medical attention was quickly
summoned, but the young man
never revived from the shock follow-
ing the accident and died at 5 o'clock
p. m.

THE ROBBER LACKED NERVE.

Else the Ticket Agent at Star-
key's Would Have Been Minus
Some Coin.

Winston-Salem, N. C., Aug. 17.—
News was received here this after-
noon of a bold attempt which was
made last night to hold up and rob
Mr. Turner, the ticket agent and tele-
graph operator at Starkey's Station
on the Roanoke & Southern division
of the Norfolk & Western Railroad.
The attempt was interrupted by the
awakening of a colored man at the
proper time.

Mr. Turner was busy working with
his telegraph instrument when he
was interrupted by a big black negro
who walked up behind him and said,
"I guess you have plenty of money."
Turning around the agent was con-
fronted with a pistol. The visitor
demanded the agent's watch, and
while Mr. Turner was moving to get
it the noise awakened a colored man
waiting for a train and who had fallen
asleep in the corner of the station.
The robber turned, and seeing the
other man, made a break for the
door and disappeared.

NATIONAL PROSPERITY IS ASSURED.

Wall street and the rest of the
country is simply responding to big
crops. Big crops mean prosperity in
the country for a year to come. Even
pig iron moves up or stays up when
big crops are assured. Crops and
prosperity are a team that goes readi-
ly and naturally in double harness.
The government reports call for a
total wheat crop of seven hundred
and ten million bushels—a crop but
once exceeded in the history of the
country. In 1904, the record year,
the crop went to seven hundred and
forty-eight and a half million bushels,
and that was the only crop that ex-
ceeded the one now in the last stages
of the harvest.

The corn crop is not beyond frost,
but it is well advanced, and the out-
look is in favor of a crop of twenty-
seven hundred million bushels, or
more than the record yield of 1899,
which was more than one hundred
million bushels short of the outlook
for the growing crop.

Rye, oats and barley all promise
well. All crops are extremely prom-
ising, cotton alone excepted, and
what the heavy staple lacks in quan-
tity will no doubt be made good in
price.

Merchants and manufacturers, all,
in fact, will share in the prosperity
of the agricultural interests of the
war, and while attending Easton in
College at Poughkeepsie, N. Y., he
became acquainted there with a
young man by the name of Prollor,
who was struggling for an education.
His money gave out and he was on
the eve of quitting the college be-
fore he had finished when Mr. Ed-
wards furnished the money for
him to complete his education. The
young man was prosperous after he
left the college and amassed a great
fortune. It seems also that he was a
legatee of the Hanna estate and I re-
ceived a million dollar check from
the administrator, and this he en-
dorsed over to Mr. Edwards. The
story reads like a romance, but one
thing is certain, Mr. Edwards re-
ceived such a check, and if it is
honored will be a millionaire soon.
Mr. Edwards is about 65 years old
and a half brother to Mr. Thomas
Harvey, of this city.

New Crop and New Prices.

William P. Brown, of New Or-
leans, is now in New York, where
he will outstay the fever trough.
He will not be a picturesque figure
again perhaps in the cotton market,
but he insists that cotton is cheap
at the prices of today. He bases his
belief upon the fact that the con-
sumption of the present cotton year
will be just about twelve million
bales, and the consumption of the
coming year will be fully as large,
while the new crop is estimated at
but eleven million bales. The govern-
ment and individual observers
alike put the growing opening crop
at just about eleven million bales,
or just about one million bales below
the needs of the world. If these
figures of production prove true, the
farmer will indeed be master of the
situation. The season for improve-
ment in the crop is rapidly slipping
by, and it stands today too spotted
to be a large crop.

The prosperity of the south seems
assured, for an eleven-million-bale
crop that will command from ten to
twelve cents is perhaps the best form
that the crop can take for the good
of the south. A fair price steadily
maintained is what the south needs,
and this is probably what is in store
for this section in the new and near-
at-hand crop year.

INFERNAL MACHINE.

Police Captain Miles O'Reilly
Was the Intended Victim.

New York, August 21.—Gun cot-
ton enough to kill a man, arranged
in an infernal machine and disguised
as a gift cigar box, was received to-
day by President Police Captain
Miles O'Reilly. This is the third
deadly explosive instrument of simi-
lar construction sent through New
York mails in the last four days,
the other two having been received
last Friday by Jacob H. Schiff, the
banker, and M. Guggenheim's sons.
Captain O'Reilly received a cigar
box which in weight and every other
detail misled him into taking it for
a genuine present. Unusually heavy
and tenacious nails fastening down
the cover, however, caused a suspi-
cion. When the box had been care-
fully opened at the ends, matches
were found glued to its inner sur-
face in such a manner that they
would be ignited on emery paper, by
the friction necessary to raise the lid.

The police found that the fare of
one of the half dozen matches would
have caused the death of Captain
O'Reilly.

Last Year's Cotton Crop.

Washington, Aug. 21.—The
census bureau today issued a
supplemental report on the quantity
of cotton ginned from the crop of
1905, showing the total growth for
that year as fixed by the ginners to
be 13,693,379 bales, counting a round
bale as a one-half bale, instead of
13,597,782.

In explanation of these figures the
report states:
"Census bulletin No. 19, on cotton
ginning, issued April 25, 1905 show-
ed that at the time of the March
census of the cotton ginneries for
the data published in that report
there remained to be ginned 197,270
bales from the crop of 1904. A cen-
sus made between July 10 and Aug.
5 for the purpose of verifying the
estimates showed that 95,730 bales,
counting round as half bales, were
ginned in excess of the estimates
published in April."

FOLEY'S KIDNEY CURE

FLOOD OF DOLLARS

A MILLION MAY DROP ON
EDWARDS OF GREENE.

A Romance of Verity, Showing
That a Kind Deed May Set in
Motion Forces That Pro-
duce Marvelous
Results.

Kinston, N. C., August 21.—If
the banks of New York honor a
check drawn by the administrator of
the estate of the late Senator Mark
Hanna in favor of Mr. Prollor, and
in turn endorsed by him to Mr.
Theophilus Edwards, of Greene
county, the latter will be a million-
aire and all because of a generous act
of his in ante-bellum days when he
was a man full of "cheek." The check
for a million dollars, drawn as stated
above, was received by Mr. Edwards
and after having been submitted to
a Congressman from North Carolina
for inspection, was expressed to the
bank in New York for collection.
The story runs thus:

Mr. Edwards was one of the
wealthiest property and slave-own-
ers in Eastern Carolina before the
war, and while attending Easton in
College at Poughkeepsie, N. Y., he
became acquainted there with a
young man by the name of Prollor,
who was struggling for an education.
His money gave out and he was on
the eve of quitting the college be-
fore he had finished when Mr. Ed-
wards furnished the money for
him to complete his education. The
young man was prosperous after he
left the college and amassed a great
fortune. It seems also that he was a
legatee of the Hanna estate and I re-
ceived a million dollar check from

dorsed over to Mr. Edwards. The
story reads like a romance, but one
thing is certain, Mr. Edwards re-
ceived such a check, and if it is

SKIN DISEASES SPEAK FOR THE BLOOD

Skin Diseases speak for the blood and tell of the acid-laden, poison-
ous condition of that vital fluid, and of its effort to throw off and rid the
system of the poisons and waste matter that have accumulated in it. Ecz-
ema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type
are all caused by a weakened and polluted blood circulation, and though they
may have lain dormant in the system during the cold weather, at the coming
of Spring and Summer, when the blood is reacting and mak-
ing extra efforts to expel all
morbid and poisonous matter,
with a type of feverishness,
External remedies cannot
cure; they soothe and give
temporary relief, but often
clog the pores and glands, and
the poison causing the trouble is thus shut up in the system to break out
afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin
diseases that enter the system
through the pores and glands, as well as those that
have their origin in the blood. Book on Skin Diseases and all advice wished,
without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.
