CONQUEST OF THE AIR CLAIMS ARMY OFFICER

Second Lieutenant Post Instantly Killed by Fall of Five Hundred Feet

PITCHED FROM AIR CRAFT

San Diego, Cal., Feb. 9.—Second Lieutenant H. B. Post, First Aero Corps, U. S. A., today was instantly killed by a fall of 500 feet from the hydro-aeroplane. About 150 feet from the surface of the bay Lieutenant Post was seen to shoot clear of the machine. It was said by watchers that the engine exploded.

The aviator started from the hangars at North Island with the intention of trying to break the world's altitude record. Perfect atmospheric conditions prevailed. Just how high he went is not known, but a barograph recovered from the wreck recorded his highest altitude at 3,700 metres, or 12,140 feet. Should these figures stand Post broke both the world's altitude record for hydro-aeroplanes and the American army record for heavier-than-air machines.

Lieutenant Post in the act of descending by a series of easy glides, had come within 600 feet of the earth when spectators noticed the machine swerve and then pitch into the bay. Lieutenant Post's death was the sixth fatality, all unexplained, of army officers since June 18, 1913. Four of them occurred at the North Island camp.

Lieutenant Post was born in New York in 1885.

BANK PRESIDENT

PLACED IN JAIL

Misappropriated Over Three Quarters of Million

INSTITUTION CLOSED DOORS

One of the Largest Banking Houses in Memphis, Tenn., Forced Into Hands of Receiver by Manipulation of Accounts.

Memphis, Tenn., Fe. 9.—Beyond announcement of the directors that more than three-quarters of a million dollars of the fund had been misappropriated and lost in speculation, no statement as yet was available of the affairs of the Mercantile Bank of this city, which today was closed and its president, C. Hunter Raine, imprisoned, charged with having wrecked the institution.

J. L. Hutton, State superintendent of banks, tonight stated that his audit of the books was not completed and until this had been done an accurate estimate of the alleged discrepancy was not possible. Raine in his cell at the county prison, maintains silence. When arraigned today on a warrant charging embezzlement he entered a formal plea of guilty and elected to go to jail, declining the proffer of friends that they endeavor to arrange bail, fixed at \$250,000. He was arrested at his home, one of the most palatial in Memphis, shortly before noon, and within an hour had been assigned to a cell at the county jail.

Representatives of other banks here tonight issued statements declaring that the suspension of the Mercantile Bank was without effect on their institutions. Only normal amounts were asked by depositors and a number of new accounts were opened by former depositors of the Mercantile Bank.

A squad of police were stationed at the doors of the closed bank throughout the day. Traffic for a time was blocked by the crowds which congregated about the building, but no disorder was attempted.

Efforts are being made by several of the directors to make up a fund to repay the smaller depositors, those having savings accounts, at least a portion of the amounts they had on deposit in advance of the final adjustment of the bank's affairs.

Opinions differ as to whether the directors can be held personally accountable by the depositors under the terms of the banking act of Tennessee which went into effect January 1st. One interpretation, which seems to represent the opinion of the majority of those who have studied the question is that the provision of the act does not apply to those banks which were chartered before the act became operative.

IN MEMORIAM.

A sad gloom was cast over the entire city Thursday, Feb. 5th, when it was learned that the Angel of Death had visited the home of Mr. and Mrs. W. W. Prince and had borne away into the Great Beyond their beloved daughter Mrs. C. J. Best, Jr., nee Miss Lella Blake Prince.

Lella had been in poor health for several months, and for the last few weeks death had been expected at any moment. She was a young woman of twenty-three years and was a devoted member of the First Baptist Sunday School when in good health. Her regard for the truth in all her statements as well as her acts were clearly shown. Her last days spent on earth were very brave and courageous. She did not fear death at all and on the day of her summons she breathed her last softly and calmly without a struggle and passed into the great beyond.

Lella is gone but not forgotten. Her bright eyes and her strong character will always linger in our memory. In many respects her life is a guiding star to all of her young friends in waiting for the summons of their call. Her memory will always linger in the hearts of those who loved her and those whom she loved.

Her fond parents, three sisters, one brother and her heartbroken husband have the tenderest sympathy of all the community.

PRESIDENT OPPOSES

Literacy Test in Pending Immigration Bill

Views of Chief Executive Are Expressed to Senate Committee on Immigration by Their Request—Legislation.

Washington, Feb. 9.—President Wilson's opposition to the literacy test as a restrictive measure on immigration has been communicated to the Senate committee on Immigration, which has before it the Burnett bill as passed by the House. The President's attitude was not volunteered, but solicited by direction of the committee which authorized its chairman, Senator Ellison D. Smith, of South Carolina, to confer with the chief executive.

Senator Smith has discussed the matter with the President several times and made a report to his colleagues. Today he had another conference at the White House, and he will discuss it at a meeting of the Immigration committee tomorrow.

"In my judgment," said Senator Smith, "and it is a judgment held also by many Democratic and Republican Senators, there is no more important legislation before Congress than this immigration bill. What we do toward reforming our immigration laws is of utmost importance, not only to our own nation, but to the whole world.

"Every foreign nation is interested in this subject. Every suggestion of immigration reform must and will be weighed carefully by this committee."

As to the literacy test in the House test bill Senator Smith would make no statement, either concerning his own or the President's views. Other

LAST NIGHT'S FIRE

WELL'S BRICK YARD SUFFERS SEVERE CONFLAGRATION.

A fire of unknown origin, and that was fierce in its onslaught, destroyed the entire manufacturing department of Messrs. H. Well & Bros., Brick Yard last night, on Little River.

The plant was shut down for the winter and while the loss is heavy and the damage considerable, the firm hope to have a new plant ready by the time the manufacturing season opens.

The amount of loss to the firm over the insurance carried, if any, cannot be determined at this time.

The fire department responded promptly, but owing to the remoteness of the plant from the city very little aid could be rendered.

members of the committee have let it be known, however, that President Wilson favors some other form of immigration restriction. Senator Lodge of Massachusetts, a member of the committee and staunch advocate for many years of a literacy test for immigrants, intends to fight vigorously for retention of this provision in the bill.

Beginning tomorrow the Senate committee will hold daily sessions until it completes its work on the measure. As to the restrictive features the committee proposes to issue a statement, probably tomorrow, after the chairman has reported on his latest conference with the President. President Wilson in view of the fact that the committee asked for his views, has left to the judgment of Chairman Smith what should be made public concerning them.
