THE FEDERAL RESERVE BOARD.

Now that the federal reserve districts have been formed and the bank centers designated by the organization committee, the federal reserve board, which must be appointed by the President between now and the first of May, will make operative the new system under the banking and currency law. Secretary of the Treasury William G. McAdoo and Comptroller of the Currency John Skelton Williams are to be ex-officio members of the board which will consist of seven. It may be assumed that the five to be appointed will be men of recognized ability and standing.

The board will be presented with protests from Baltimore, New Orleans and one or two western cities, expressing dissatisfaction with the regional lines fixed by the organization committee and especially with the cities chosen for federal reserve banks. The full board will doubtless stand by the work of the committee especially since two members which constituted a majority of that committee are to be ex-officio members of the board.

If Baltimore made a serious effort to obtain one of the federal reserve banks it kept quiet about it, for it was understood from the start that Richmond would be selected for the district which was to embrace Maryland.

Texas, however, is liable to feel hurt, not having sole charge of military operations against Mexico.

Another precedent broken at Washington. Miss Wilson could have been a June bride, but decided on May instead.

Beware of Ointments For Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price 75c. per bottle.

Take Hall's Family Pills for constipation.

Because Miss Cruce, daughter of the governor of Oklahoma, is called a remarkable beauty, the Houston Post opines that she resembles her mother. The average man can bear an allusion to his homeliness with fortitude and equanimity.

The glass eye of a West Virginia man exploded while he was reading a Mexican war story. We can't imagine how there was any particular strain on the glass eye.

A Wisconsin man has been found guilty of slanderous gossip and may go to jail. Proves the assertion some women make that all the long tongues don't belong to their sex.

land. New Orleans made an earnest effort, but its fight was unavailing. It was the same way with Denver. Kansas City was selected instead of the Colorado city.

The federal reserve board will have serious duties to perform in setting in motion and supervising the federal reserve system. The committee decided in favor of twelve districts, the maximum number allowed by law; but many financiers are of the opinion that the number will be reduced to six or even four. It is reasonable however, to think that the board will give the present arrangement a fair trial. Baltimore and the other protesting cities will have to wait. As one of the New Orleans papers remarked in opposing a formal protest when the people of the Crescent City organized an "indignation" movement: "It would be like a post mortem over a poker hand."

It may be a year before the new system is well tested. In the second year it need surprise no one if the district boundary lines are considerably extended, and if Atlanta, New Orleans, Birmingham and Nashville are all thrown into a region of which Cincinnati or Louisville is made the financial capital. In the meantime bankers and other business men and farmers—agriculture is to be especially benefited—will look forward with lively interest to the inauguration of the system.

Skin Health Comes From the Blood
Even Slight Eruptions Such As Acne Should Be Treated.

Pimples and other skin troubles do not blotch the face like flies. They come bubbling out from within. They are impurities, and if let alone or greased with salves they become chronic, because the cause is still at work within. It should be attacked with S. S. S. and the impurities in the blood thus rendered harmless.

The skin is but a net work of fine blood vessels. And it is a perfectly natural consequence that any influence in the blood that is a condition of ill health makes its first appearance in the skin. There are certain medicinal properties that follow the course of the blood stream and the influence of these properties is that of an antidote. This is why S. S. S., the best-known blood purifier, has such a positive action in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or glandular activity to select from the blood or from this fine net work of blood vessels in the skin, those elements which it requires for regeneration.

Thus pimples, acne, eczema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of S. S. S.

Under the influence of S. S. S. this fine net work of blood vessels in the skin is constantly taking from the blood the nutrition required for healthy tissue and the cause of disease is just as constantly being removed, scattered and rendered harmless.

These facts are more fully explained in a book on skin troubles sent by The Swift Specific Co., 531 Swift Bldg., Atlanta, Ga. You will find S. S. S. on sale at all drug stores. Get a bottle to-day and banish all skin afflictions.
