NOVEL CHAPEL.

A motor car chapel has been operated along the Rio Grande during the past year by the Catholic Extension society with so much success that the experiment will be repeated,

. The car is named St. Peter's chapel, and is a real church on wheels, being the only one of its kind in the United States. It has been the means of providing Sunday services for as many as half a dozen widely scattered communities in one day.

When the back doors of the car are opened and the sides lowered a chapel 15 feet wide is revealed to the congregation, with all the necessaries for mass, vespers and other services

The car has been operated under the direction of the Right Rev. J. W Shaw, Bishop of San Antonio, formerly seceretary to the Bishop of Mobile. The Rev. Father Constantineau has been conducting services in this moving chapel and is highly pleased with the results accomplished.

May Help You if **Lungs Are Affected**

Proper diet, fresh air and temperate habits are beneficial to persons suffering from Lung Trouble; but in a great many instances reports show that the addition of a medicine for this affection has materially helped in bringing about recovery. For more than fifteen years Eckman's Alterative, a medicine for Throat and Lung Troubles, has accomplished good results. Read what it did in this case:

Madison Lake, Minn.

with hemorrhages of the lungs which confined me several weeks, each time to my bed. My doctor advised me to go West. In November I started for Denver, Col. After my arrival I met Michael Brody, who, upon learning of my condition, urged me to take Eckman's Alterative. I kept on taking the medicine and improved fast. In March, 1910, I returned home. I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 130 pounds. I now weigh 165, my normal weight. I thank God and your Alterative for my health."

Eckman's Alterative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn-Colds and in upbuilding the system.
