MINISTER TO GREECE WILLIAMS RESIGNS

Secretary Bryan Issues Form-

al Statement WILLIAMS

Minister Williams' Comment Regarded by the State Department as Peculiarly Untimely and III

Advised at This Time. Washington, July 6 .- Formal announcement of the resignation of George Fred Williams as minister to Greece and Montenegro was made late Centre and Beech street. Matter was the women citizens of the countytoday at the state department.

Secretary Bryan issued this state ment without comment:

"Mr. Williams requests Secretary Bryan to tender to the President his resignation as minister to Greece and Montenegro. He says the reason for his resignation is that he cannot comment upon the situation in Albania as he would like under the restraint imposed by his diplomatic position and that he does not feel that he can conscientiously keep silent with the knowledge which he has of what is being done.

"He says that he considers the suc cess of the President more important to the world than all of the efforts of other men, and does not wish to embarrass him and wishes to thank him the City of Goldsboro hereby request boro Womans Club have the convicfor the consideration which has shown your Honorable Board to appoint a tion that women are needed to serve

President Wilson is expected to ac- ing of said Street. cept the resignation tomorrow and reer of Mr. Williams as a diplomat terly criticising conditions in the kingpowers, the President caused his res-Friday night. It is understood, however, that Mr. Williams already has the resignation on the way to Washington.

The case is said to be without precedent in the history of the state department. It is not recalled that an American diplomat has gone outside of his post to discuss the affairs of another country.

In the present instance the comment was regarded by the state department as peculiarly untimely and ill advised because of the extreme jealousy with which the European powers have guarded the Balkan problem. It is considered by them as' to be dealt with by the European powers alone the question being precisely that of the United States government in regard to the Monroe doctrine.

It was recalled tonight that even in the most desperate phases of the late Balkan war, when the allies were calling on Constantinople and many of the diplomatic representatives in that capital were calling upon their governments for help, the six powers interposed an effective obection to the appearance of American warships in the Dardanelles.

Secretary Meyer had rushed two armored cruisers to aid the American contingent in the Turkish capital and on the shores of the Bosphorus, but these ships never got within the Goldthe Dardanelles they were diverted to the coast of Asia Minor at the request of several of the European powers while Great Britain took upon her shoulders the protection of all the Americans fin that quarter of the world.

It is now known that early in his mission Mr. Williams sought to have his powers extended to include Albania, but the state department declined. It did, however, consent to Mr. Williams' earnest request to be allowed to make a personal investigation of the Albanian situation, and there followed the statements contained in his contributions to Athens newspapers which led to his resignation.

Mr. Williams, who was a member of Congress years ago, is a close friend les. of Secretary Bryan.
