## **RIGHT OF PETITION** GRANTED TO WOMEN

## Opponents of Measure Shied At It Some, Claiming That It Was Only Another Entering Wedge in the Cause of Woman Suffrage.

VOL. LX

(Raleigh News & Observer, Feb. 10.) What some are pleased to call another "entering wedge" in the cause galicular phile of their business an of woman suffrage, gained a signal victory in the House yesterday when that body by a vo e of 68 to 24 passed the Senate bid providing that women proerty owners shall have the right of pa tition where elections are to be here in which taxes would be assessed against their property. Different and sundry men a were used to detethe bill but an such efforts failed an after the measure bad passed its se or ' reading and objection had been made to its third roll call, the champion of the measure, Mr. Thomas flushed with victory, called for a suspension of the rules and the bill was enacted into law.

Mr. Bowie called the bill another suffragette measure and moved to ta ble it but wandrew the motion which opened up the floodgates and for an 10 FORLE VOIE ON hour the members listened to one of the liveliest debates of the session Somehow or other the word got noise: around on the outside that anothewoman suffrage debate was on and in a very few minutes the galleries were les to end debate on the adminstra filled with the fair sex.

bill saying that it was not a measure to give the women the right to vote but only the right to petition where and been in continuous session for her property 'nterests were involved more than 36 hours. and where her land would be subject to taxation. He declared that the wo- amendment must lay over for "ere men should have their intests safe- day, and if this is construed to mean

was tired of hearing the statement that every time a bill came up in the House with the name of woman in it of Monday. that it was an entering wedge for woman suffrage. He wanted this bill to stand on its merits. He said that ness, sanitation and morality and when you educate a woman you educate a an attempt t adopt any form of ciofamily and he was always in favor or ture rule. giving the child a chande. "Will you,' thundered the gentleman from Anson. "table the bill and vote it down simply benause it carries the name of woman?"

Mr. Williams of Cabarrus wanted to know if we are going to become so from the rights of petition.

Mr. Witherspoon said there were two words, the bare mention of which would stir things in the House, one was the word fish, which would cause a roar from the east, and the other word was woman, which always disturbed the gentleman from Ashe. He said the Legislature of 1911 passed an act allowing women to serve on school boards and saw no reason why they should be denied the right of petition under the provisions of the bill under der." consideration. He admitted that he was an ardent woman suffragist and poon was not ashamed of it.

Mr. Page said he was not a woman suffragist but was a supporter of this bill. He proposed to do nothing but what was right, just and equitable He warned chose opposing this bill that if justice was refused to women in this instance, in the protection of her property rights that the opponents of woman suffrage would soon be overwhelp ed by the tide now sweeping toward them.

Mr. Mason in a calm dignified manner explained the source of this bill and that its passage would clear up matters. The Supreme Court had de cided that woman was not a free holder, although the court was divided on the question 3 to 2, and this bill would clarify the situation. He declared that the opposition was takin fright at rotaing, that a woman ca now sue her husband, can own he own property and make her own will so why not give her this right of pet. tion.

On a call for the yeas and mays the bill passed second reading 68 to 24 Objection was made to passing third reading, the rules were suspended and fans. the bill passed.
