Some Facts About Potash

POTASH is higher than last year because of scarcity brought about by war in Europe and recent decree by Cormony anti-Europe and recent decree by Germany entirely prohibiting further exports, but the increased cost, if proportioned to the amount of fertilizers used per acre, is

For Potash in mixed goods, our charge at this time is at the rate of \$1.50 per whit potash (present market price \$2.50 to \$3.00 per unit):-in comparison with \$1.00 per unit last season. A difference of only 50c. per unit. This increased cost, per acre of land, is insignificant, as you will see by the following:-

2% POTASH GOODS-Increase 50c. per Ton for Potash

200 lbs.	Fertilizer	per	acre	Cost o	of	potash	5 c.	more	than	last	year.
	Fertilizer		acre			potash					
400 lbs.	Fertilizer	per	acre	.Cost o	of	potash	10 c.	more	than	last	year.
500 lbs	Fortilizer	Der	acre	Cost o	١f	potash	12ac.	more	than	last	vear.

3% POTASH GOODS-Increase \$1.00 per Ton for Potash

- 10	
200 lbs. Fertilizer per acre	Cost of potash 10c. more than last year.
300 lbs. Fertilizer per acre	Cost of potash 15c. more than last year.
400 lbs. Fertilizer per acre	Cost of potash 20c. more than last year.
500 lba Fartilizar per acre	Cost of notash 25c more than last year.

This is a very small increase in charge for Potash when you consider that Muriate of Potash is now selling at about \$125.00 to \$150.00 per ton (equivalent to \$2.50 to \$3.00 per unit of Potash) at ports, for cash in large quantities, whereas our present charge of \$1.50 per unit is for goods delivered, time payment.

Our price per unit of Ammonia delivered is \$3.25 against \$3.50 last year. A reduction of 25c. per unit, although Cotton Seed Meal is now selling approximately at the rate of \$3.40 to \$3.50 per unit of Ammonia. Our charge per unit for Available Phosphoric Acid is the same as last year, -60c. per unit.

> If you want Fertilizers containing Potash, write or apply to our nearest Sales Office.

Ordinarily you would not risk growing your Crop without Potash. Why do so this year when the cost per acre is so little more than in previous years? Can you afford to take such a chance?
