NIGHT VISIONS.

bero as second class mail matter,

To a person not familiar with aviation, flying in an aeroplane at night would seem extra hazardous. As a matter of fact, airmen who have had much experience in this sort of work declare that night flying is not only Blood Troubles Can not Resafer from an attack by the enemy, but permits a great deal more to be seen by the pilot than one would sup-

Every detail of a landscape can be easily detected, buildings, roads, railway lines and the position of artillery are located without andy difficulty, while the flashing lights that are trained on the sky frequently fail to reveal the aeroplane. Pilots often descend to a distance of less than a thousand feet above the earth and make observations in a leisurely manner that the day time. The experience of the identity.
