SITUATION IS GRAVE FOR SERBIA AND ALLIES

Serbians Are Inflicting Heavy Losses On the Enemy—They Are Outnumbered.

London, Oct. 12.—Serbia is being attacked from the north and the east. The Austro-Germans, after their capture of Belgrade and Semendria, are advancing southward, while the Bulgarians have sent forces to endeavor to interrupt communications north and south of Nish, the war time capital of Serbia, and attack the Serbs on the flank if they are driven back by the German Field Marshal von Mackensen.

The situation is admitted to be a very serious one, not only for Serbia, but for the whole allied cause.

HAVE DARK HAIR AND LOOK YOUNG.

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. When ever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

Information for Lung Sufferers

The makers of Eckman's Alternative will be pleased to send reports of recoveries from tuberculosis and a booklet of interest to sufferers, with information about diet and fresh air. Investigate this case—
2141 Susquehanna Ave., Falla, Pa.
My Dear Sir—For two years I was afflicted with hemorrhages of the lungs, and later I was taken with a severe attack of pneumonia. When I recovered sufficiently to walk about the house I was left with a frightful, hacking cough, which no medicine I had taken could alleviate. It was at this time, March, 1902, that I started taking Eckman's Alternative. In a short time my cough was gone and I was pronounced well. I cannot speak too highly for the good it has done. SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys, Then the Back Hurts. Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

A LIFE LESSON.

There! little girl, don't cry!
They have broken your doll, I know;
And your tea-set blue,
And your playhouse, too,
Are things of the long ago;
But childish troubles will soon pass by.

There! little girl, don't cry!
They have broken your slate, I know;
And the glad, wild ways
Of your schoolgirl days
Are things of the long ago;
But life and love will soon come by.

There! little girl, don't cry!
They have broken your heart, I know;
And the rainbow gleams
Of your youthful dreams
Are things of the long ago;
But Heaven holds all for which you sigh.
There! little girl, don't cry!

FOOTBALL PLAYER KILLED.

Decatur, Ga., Oct. 12.—Davis Chambers, 17 years old, halfback of the local high school football team, was killed here late today in a game with Marist college of Atlanta.

That Goldsboro is a recognized cotton center of the first magnitude is now settled under the sanction of the Agricultural departments of the Nation and the State, and today the Argus has the satisfaction to announce that Mr. J. R. Watson, official county cotton grader, has arrived, and will open office in this city for Wayne county. This means that every farmer in Wayne county can have his crop accurately graded, so that he will then know what his cotton is worth on the open market.

EAT LESS MEAT IF BACK HURTS.

Take a Glass of Salts to Flush Kidneys If Bladder Bothers You. Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

KNOW YOUR COTTON

GOLDSBORO NOW HAS AN OFFICIAL GRADER, WHOSE GRADING GOES.

As already announced in the Argus, Goldsboro has now located here an official cotton grader for Wayne county, sent out by the government. He is Mr. J. R. Watson, whose office and headquarters is in the National Bank Building.

Mr. Watson invites the farmers and people who wish to become better informed as to the work he is doing, to come to see him and let him talk the matter over with them.

The plan of action is very simple. Gins of the county are being provided with instructions as to sampling the bales of cotton before they leave the gins, and are being furnished free all necessary supplies for making samples to be sent in to Goldsboro, all of which expense is borne by the State and National Government, together with the appropriation made by the county commissioners, The U. S. mails carry the samples free when properly drawn and mailed by the ginners. It is necessary for the farmers to understand that the samples should be drawn by the ginners, and sent in according to directions, as it is impossible for the grader to go to every man's house to draw the samples. Nearly every gin this county has already agreed to draw the samples when requested to do so by the owners of the cotton.

The government officials by whom this enterprise is being attempted, have two definite ideas in view. One of these is that the owner of cotton may be placed upon an equal footing with the buyer when he offers his cotton for sale—that is, he may know the quality of what he has to sell. The other idea is that this knowledge of his cotton may enable the farmer to form co-operative marketing associations, by turning over his cotton, along with many other farmers, to an agent to sell for him. The farmer can keep his cotton at home and the agent will still know what grade it is and when a sufficient number of bales are placed in the agent's hands to make a shipment he can notify the farmers to deliver their cotton at a certain place and on a certain day.

Mr. Watson is anxious for the farmers to know that he is here to serve them, and that he will as far as possible grade any cotton that comes on the Goldsboro market when it has not been sampled in the regular way by the ginners.

AMERICAN GIRLS ARE PRAISED BY NEWSPAPERS IN WEST.

Company Scheduled For This City Has Traveled In Many States.

It is expected that the concert by the American Girls in this city on the evening of October 28th, will be one of the most popular features ever brought to Goldsboro. Below are comments from several Western cities where the company has appeared:

"The six charming American Girls, by their dash of spirit and warmth of heart, won the hearty approval and applause of the audience."—Perryville (Mo.) Republican.

"Their impersonations were out of the ordinary, and the entire program was excellent."—Caney (Kans.) Chronicle.

"The American Girls are charming and accomplished. They gave a snapshot program before an American flag setting."—Holden (Mo.) Enterprise.

"The American Girls have been declared unanimously, as far as I can learn, the best number ever on our course, and I have even had people stop me on the street and thank me for selling them season tickets."—Fred Vollmer, Gallatin, Mo.

"In the American Girls' program you do not think of the performers as professionals (although their work is strictly artistic), but of six happy talented chums gathered in the music room of some home to entertain themselves with their accomplishments." * * From beginning to end the audience was either in a ripple of spontaneous laughter or spellbound by the wonderful magic of the more classical music."—Kaufman (Tex.) Post.

SAFETY FIRST

The slogan "Safety First", embodied in the winning pictorial poster, is worth to the designer the snug sum of \$300. In due time this poster will mark the streets and highways of the entire country according to the plans of the Safety First Society of Greater Detroit.

A contest for such a poster will be launched by the Society at the convention of the Safety First Federation of America in Detroit, Oct. 19 and 20, and will close about January 1st, all designs to be submitted to the Society at the Detroit Board of Commerce.

The competition will be open to all artists in the United States and for the design, which in the opinion of the judges will bring most forcibly to the minds of the people "safety first" on the streets and highways of the country, \$300 will be paid. The second best will be awarded \$100, the third \$50, the fourth \$30 and the fifth \$20.

The five judges will be appointed by Darwin P. Kingsley, of New York City, president of the Safety First Federation of America, who will meet immediately after the close of the contest and make the awards.

This will be but one of the features of the National Convention in Detroit. Reports will be presented at that time from committees on street traffic, transportation, fire prevention, health and sanitation, "safety first" for children, and a standard code of traffic regulations will be recommended for adoption by cities throughout the country; and there will be discussions by national authorities of many other phases of the subject of public safety.

Every city in the United States is asked to appoint three delegates to the convention.

The poster design must relate to safety on the streets and highways, and contain the words "Safety First" and be adaptable to nation wide use. The design must be on flexible cardboard or paper, 8 1/2 by 11 inches, and of such character as to lend themselves to lithograph or color process printing and zinc reproduction.

The general rules covering the competition can be obtained from the Safety First Society of Greater Detroit.

Alonso P. Ewing, president of the Society, believes that this contest will aid in arousing such interest as to prompt the formation of many safety first organizations throughout the country and decrease the number of street accidents by one half.

"At no time in the history of the world has the recognized value of human life been so high as at present" said President Ewing, "notwithstanding the terrible havoc that is being wrought by the European war. Evidence has not been wanting during the past twenty years to show the desire on the part of all to safeguard life, limb and property. During that time the greatest effort along this line has been made in manufacturing and industrial activities and the results have been wonderful."

With the advent of the automobile and other fast moving traffic on our streets and highways, there has been an interesting demand for public safety appliances and education throughout the country. Foremost among the larger cities which have taken up the subject, is Detroit where the citizens and public officials have actively cooperated with the Safety First Society of Greater Detroit.

Through the efforts of this organization, a code of traffic rules has been adopted in Detroit which are attracting nation-wide attention. Many of these rules have been accepted as a standard by other large cities throughout the country.

NO HOPE OF PEACE SAYS COUNT OKUMA

Japanese Premier Says World Peace Is Yet a Fantasy—Wars and More Wars.

San Francisco, Oct. 12.—Count Okuma, Japanese premier, and Dr. Ng Foon Chew, a Chinese editor, of San Francisco, told delegates to the International Peace conference today that world peace was yet a fantasy and will be until the militaristic order of things is changed. In a message to Congress, Count Okuma said there was no hope for peace "as long as there exists nations or individuals who believe or exult themselves as absolutely superior to others and to assert that superiority do not hesitate to appeal to material forces."

On the floor of the Congress tonight Dr. Ng Foon Chew added to Count Okuma's statement:

"There will be wars and more wars just so long as there are two codes of laws and two standards of morality, one governing nations, the other individuals."
