S. S. S. Greatest Blood Remedy Gives Results When Others Fail

Nature's Remedy For Blood Troubles.
 The purifying and curative properties of Nature's great remedy have made "S. S. S. for the Blood" a household name. Thousands today enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood purifier. S. S. S. is made entirely from roots, herbs and barks, which possess cleansing and healing ingredients. You cannot be well when your blood is impure; you lack strength and energy natural with health; your complexion becomes pale and sallow; your vitality is weakened. When waste or refuse matter, which Nature intends shall be thrown off, is left in the system, it is absorbed into the blood and boils, pimples, rashes, blotches and other eruptions of the skin appear.

S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character. All skin diseases and eruptions pass away, and the smooth clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, all are deep-seated blood disorders, and for their treatment nothing equals S. S. S. Get S. S. S. at any drug store. If yours is a peculiar case write S. S. S. Co., Atlanta, Ga.

ALL AMERICA HAS ESPECIAL CAUSE FOR THANKSGIVING THIS YEAR.

President Wilson has designated Thursday, November 25 as the annual Thanksgiving Day of America, and Governor Craig of our own State, following the custom of the years, has made his proclamation in accordance therewith—a courtesy that has come to be a custom, although there is embodied therein one of the earliest as it has been one of the most continuous—recognitions of the doctrine and principle of State's Rights.

Thanksgiving Day is peculiarly an American institution, and was instituted with a two fold purpose—the rendering of thanks to God as a common people of a common country for the year's harvest, and the offering of public grateful acknowledgment for all His mercies to God, "in whom we trust."

The forthcoming Thanksgiving Day is one that should strike an exceptionally happy chord throughout the country. The nation is at peace with all the world, at a time when the world's most stupendous and terrific war is in progress.

And as for the fruits of the earth, there has been nothing like this year's abundance. The value of the crops, according to government officials, will reach five and a half billion dollars—a half billion more than the highest previous record. A month from now, when a revision of values is made the total will probably be found higher than resulted from November's compilation.

The value of the 1915 cotton crop is estimated at \$609,000,000. It will go more than that—probably \$100,000,000 more.

The corn crop, not quite up to the record yield, exceeds in value by \$190,000,000 that of the biggest crop ever known.

The wheat crop, the largest ever grown in this or any other country, is valued at nearly a billion dollars.

Not only have the more important crops been bumper, but the minor crops, too, have been wonderfully abundant. The diversification of crops in the south has been a marvelous success and has been of far-reaching benefit.

In this year of plenty in America Thanksgiving Day should be celebrated with unusual jubilation, both in physical feasting and in spiritual works of philanthropy and prayerful thanksgiving.

ROWAN MAN IS GIVEN

LONG ROAD SENTENCE

Salisbury, Nov. 15.—Fletcher F. Smith, prominent business man, has been in a serious condition all today. Early this morning he suffered a stroke of paralysis which affected his whole right side and there was also a rupture of a blood vessel on the brain.

Rev. C. H. Artis, a well-known negro preacher, died suddenly Sunday while attending a funeral service of one of the teachers of Livingston college. The funeral was held in the college chapel and just as the corpse was brought in Artis toppled over. He was carried out but was dead when his bearers reached the front porch.

D. L. Brown, who led the officers such a chase Saturday night was before Judge Carlton in county court today and faced several charges. For the possession of the 65 gallons of whisky found in his automobile he was found guilty and sentenced to nine months on the roads. For reckless driving through the county he was found guilty and judgment was suspended. For resisting officers he was found guilty and given six months. For exceeding the speed limit in Salisbury he was found guilty and judgment was suspended. In the two cases where sentences were passed notices of appeal and bonds totalling \$1,000 were given. It was stated this afternoon by Mr. Brown's lawyer that the appeals would hardly be perfected and that Mr. Brown would serve such time as was required. It is hoped by the attorney to have the sentences reduced. The Spencer authorities have stated that Mr. Brown is to be charged with violating the speed laws of that town and it was stated at the courthouse that Granite Quarry would likely take the same action.

By a strange coincidence Brown's father, H. M. Brown was tried in the same court today for selling whisky and beer and was found guilty in both cases, fines amounting to \$300 being imposed. An appeal was taken. The elder Brown was to have been tried 60 days ago but the case was postponed till today to enable him to take treatment at a hospital.

OBITUARY.

(Providence Journal.)
 An Illinois hunter the other day crawled through a barbed wire fence, pulling his gun after him. No surer method has ever been discovered. The funeral was well attended.
