"Isn't it comfy up here?"

Ann: "Well, yes, Betty—but sitting up here in the air—"

Betty: "You'd do it, too, if your house had the drafts *this* house has!"

Ann: "It's not your house, my dear! What you need is a Lennox Heating System! You have no idea how nice it would be—you'd have warm air flowing gently through every room. There'd be no drafts and little temperature differences between the ceilings and floors!"

Betty: "But wouldn't temperatures change a little in between times when the furnace isn't going?"

Ann: "No, 'cause a Lennox works most all the time, gives you constant temperature. It doesn't vary more than a teeny fraction of a degree!"

Betty: "Sakes alive! Wait'll Frank gets home! No supper for him till he calls the Lennox dealer!"
