"A BETTER COUNTY THROUGH IMPROVED FARM PRACTICES"

VOLUME TWO

TRENTON, N. C. THURSDAY, MARCH 1, 1951.

NUMBER 42

Delegation Unanimously Endorses School Bonds; Vote Date Set on Monday

Jones Native Hits 100 Mark in Norfolk

A recent story in the Norfolk Virginia-Pilot tells of a native Jones Countian, who has now passed her 100th birthday anniversary and is still in reasonably good health. She is Mrs. Katie Jane Anderson, who was born in slavery on the Tommy Harrison Plantation, which is, according to the aged woman, 21 miles from Kinston and 21 miles from New Bern.

She told the Virginia-Pilot reporter that her boss, Harrison, was a good man and never whipped the slaves unless they got into fights among themselves or "cussed at the white folks."

One of her memories that may awake childhood thoughts among some of the older people in this part of the state was a tremendous snow, that she recalls as Cox's Snow, since a man named Cox was frozen to death during the time that the big snow was on the ground.

After the war, at the age of 16, she was married and lived on Mussle Shell Creek with her husband. She and her husband went to Norfolk in 1887 and he died in 1912.

On her 100th birthday anniversary the Jones County native told her children and grand-

More than 100 Jones Countians Monday morning attended the meeting held by the Board of County Commissioners and the County School Board to sound out sentiment on the holding of a \$130,000 bond issue election to raise funds needed to complete the two consolidated high schools now under construction in the county. Not one of those who attended voiced opposition and nine of those present spoke briefly, but strongly in favor of the election and subsequent sale of bonds.

The Board of Commissioners accepted the voiced opinion of the group that attended the meeting and announced unofficially that it would call for a bond issue election at the earliest possible moment. However, the commissioners will wait until Monday, March 5th, to pass the formal resolution calling for the election.

School Superintendent W. B. Moore presided over the meeting and urged everyone present to speak out, either for or against the proposition. Five students and four adults spoke, each giving a strong argument in favor of the completion of the school plants with the gymnasium-auditorium.

Those speaking were Shirley Jones, Peggy Hargett, Linwood

Extra Votes in Circulation Drive Take Biggest Drop After Sat'day

This is the brand new 1951 Ford that this paper will give to the hardworking individual who tops the list on March 24th in the circulation campaign that is now being sponsored in Jones and Lenoir County. Over 20 men and women from both counties are enrolled in this campaign and one of this group will drive this brand new Ford away from the Lenoir County

News Co., Inc., offices on the night of March 24th. When this picture was taken in front of the Pelletier Motor Co. in Maysville, from which the car was purchased, it had exactly to tenths of a mile on its speedometer. It will remain on display in the showrooms of the Maysville company until the night it is to be given away.

Blood Test Clinic in Pollocksville

Jones County Health Department officials this week announced that another free blood testing clinic will be held next Thursday, March 8, at 10:30 in Pollocksville. The clinic will be held at Kellum's Store at the end of the School Lane. The health department urges that everyone in the Pollocksville community take advantage of this free opportunity to see if their blood is pure. It has been pointed out that many deadly blood diseases can be halted if they are detected in time. Last month a similar clinic in Maysville had 160 examinations and from that number 17 were found to be suffering with diseases of the blood that are dangerous but easily cured when they are detected.

Five Per Cent More Is Added 51 Tobacco Crop

The United States Department of Agriculture through the Production and Marketing Administration announced on Tuesday that an additional five per cent increase would be permitted in fine-cured tobacco acreage for the 1951 crop year. Previously nine and one third per cent increase for 1951 had been announced and this Tuesday increase will permit the crop this year to be legally fourteen and one third per cent larger than in 1950. As soon as possible each county FMA office will issue to every farm contract holder the acreage that he will be allotted for this crop year. County FMA officials urge all farmers to wait for this to come to them and not to reach them in haste at this time and calling by the office will only impede the

County School Board, Chairman Bill Johnson of the Clean Newton Smith American Legion Post in Trenton, Mrs. Harold C. Mallard, county Parent-Teacher Association president, Robert Mattocks, a Maysville business man and Sylvester Mallard of Trenton.

Mattocks pointed out that he had "been a little cold to the idea in the beginning, but that now he was convinced, beyond doubt, that the physical education plants were needed if the county was to have a complete program for its students."

Chairman Moore called for a standing vote on the issue and with requests for those in favor of the issue was placed the entire group in the court room rose. No one stood when Moore asked for those in opposition to the plant to stand.

Jersey Calf Sale

All persons interested in purchasing a top-grade registered Jersey heifer either for a farm cow or for use with a dairy herd are reminded of the bred and open Jersey heifer sale that is to be held in Goldsboro on March 20th. This is a non-profit sale, conducted by the Carolina Jersey Breeders' Association. This sale will provide Eastern Carolina farmers with an opportunity to buy a high type animal on a guaranteed basis. Time and location of the sale will be announced later.

Forest Fires

This week careless workers busy with the job of burning off land in preparation for spring planting allowed their fires to get away from them and a number of serious and expensive forest fires were raging in the Comfort-Phillips Crossroads section of Jones County. Foresters in this section have repeatedly urged farmers to use extreme caution in setting fields on fire. When it can be proven that an individual is responsible for a woods fire they are liable to heavy fines and possible jail sentences, it was mentioned.

Saturday afternoon, March 3, will mark the close of one of the most important periods in the Automobile and "Cash Offer" campaign now being conducted by the Lenoir County News and Jones Journal.

The public, friends of the contestants themselves, are actively at work this week making a hard drive for that all important subscription before the big cut in votes Saturday. The drop in votes each week during this campaign has been small compared with the drop that is to come next. You who are pulling for your favorite contestant should subscribe this week while your subscriptions count most votes.

We wish to make clear to those who are not familiar with the big "club" coupon offer in effect this week that each \$15 worth of subscriptions from one to five years to the Lenoir County News and Jones Journal sold and turned in to campaign headquarters Saturday afternoon by 5 p. m., will entitle the candidate in the campaign to a "club coupon." The "club coupon" is worth 132,000 extra votes. These votes are in addition to the regular votes allowed on each subscription. Every subscription sold helps to accumulate the \$15 worth. Two "club coupons" will be given with \$30 worth of subscriptions, etc.

In other words, 132,000 EXTRA votes will be credited to as many \$15 clubs as you can sell.

There is no limit placed on how many \$15 clubs a candidate may get. All have been advised of the vast difference in vote credits upon subscriptions turned in later.

Votes are all one needs to win the new 1951 Ford Deluxe which costs approximately \$1,600.00 and there is only one way to get them; now is the time when subscriptions earn thousands of bonus or extra votes. Each and every award in the list is worth many times the effort it will be necessary to win it, and while they are not going to be won without effort, one's ability to hustle and secure results will determine just how large a slice of the prize melon he or she will re-

ceive. To come out victorious in this race is the aim of every "live wire" candidate and from the activity friends of the contestants are showing, it appears that there is intense rivalry on every hand. Each candidate has his or her friends who are boost-

ing their favorite. TIME, TIDE, and VOTES WAIT FOR NO MAN. WORK NOW!

The leafy parts of many vegetables are rich in carotene and protein, essential ingredients of well-balanced livestock feeds.

Hardest Workers Now To Be The Winners

MARCH 24TH

A new 1951 Ford Automobile at stake. Going to let your competitors win it, or work a little harder this week and win it yourself? Votes will win the automobile. Get yours this week before the biggest drop in votes of the entire campaign.

LIST OF CANDIDATES AND VOTES ACCEPTED FOR PUBLICATION

Name	Address	Votes
Mrs. Claude Aldridge, Jr.	La Grange	333,000
