

## Creativeness Can Turn Out Attractive Clothes

Do you like to sew and create? Most women and girls do says Mary Em Lee, State College extension specialist in clothing. And if you do enjoy being original and using your creative streak, you can make many of your own clothing accessories. Accessories that show good taste are often way out of line as far as price is concerned, and by making your own you can have a lot of fun and at the same time save yourself a great deal

**HITLER'S SISTER . . .** Paula Hitler-Wolf, Hitler's sister, living on relief in Munich, is searching for legal proof of Adolph's death so she can inherit part of his estate.

of expense. Patterns for attractive neckwear, bags, hats, and gloves are found in almost all popular pattern books at your local department stores.

Accessories are very expressive of certain modes and personalities, explains Miss Lee. They can be dressy, tailored, feminine, exotic and very dramatic according to the wishes of the wearer. Accessories can completely change the character of the suit or dress—"dressing it up" or "dressing it down" so to speak. Of course, here again, the occasion, as well as the costume and personality, will enter into the decision.

The use of artificial flowers as an accessory comes and goes with the seasons. They can strike a small colorful note as can no other small accessory. For winter, Miss Lee suggests velvet, satin and heavier flowers in deep, rich colors—for spring and summer in pastel, lighter weight fabrics.

At the present time costume jewelry is enjoying a bright spot in women's wardrobes the country over. Everyone is wearing it and enjoying it, too. But Miss Lee cautions those who love costume jewelry not to wear too much of it at a time. Overdoing it makes you look much more like a gypsy than a smartly dressed lady. Use costume jewelry sparingly and use only those pieces that show good taste and fulfill a definite need to achieve the best results.

According to the Office of Foreign Agricultural Relations, 3,630 foreign visitors were handled through their efforts in the past fiscal year. Of these, 2,035 came to this country without financial assistance from this government.

The magnitude of built-up insect resistance to newer chemicals is often close to actual immunity, according to U. S. Department of Agriculture entomologists.
