presided over the business session at which time a slate of new officers was presented by the nominating committee. They are as follows: President, Mrs. Bill Henderson, Vice-president, Mrs. W. R. Byrd, Secretary and Treasurer, Mrs. Guy Eubank, Mrs. J. C. Bell closed the meeting with prayer after which the hostess Mrs. J. M. Thomas served delicious refreshments.

**Game Protector Talks To Methodist Clubmen**

The Men's Club of the Maysville Methodist Church met Tuesday evening in the social room of the church to hear a lecture by game protector, Charles Peterson of the local game refuge.

Peterson explained the procedure for the management and protection of deer, eastern North Carolina's most abundant game animal. He also brought a color film from the educational division of the Wildlife Commission of the state, dealing with the same subject. Nine members were present, with Leonard Thompson, president, presiding.

The Men's Club decided to develop a vacant lot near the church into a parking area, enclosing it with a fence. They will also take over the care of the church grounds as a continuing project. Following the program Robert Mattocks served refreshments.

**PERSONALS**

Mr. and Mrs. A. B. Bracey and children visited Mrs. Bracey's pa-

**ALL KINDS OF LEATHER CARE DURING HOT DAYS**—Use saddle soap to clean leather upholstery or leather surfaces on tables, advise Extension home furnishings specialists. To clean leather simply dampen a cloth or sponge in warm water; wring it out, then rub it over saddle soap. Rub the leather briskly. Then rub with another moist cloth without soap. Rub dry with a clean soft cloth. Any gloss which disappears will be restored by friction of the last rubbing.

The specialist warns against using furniture polishes, oils or varnishes on leather because these preparations frequently contain solvents that cause leather to become sticky.

If leather appears to be drying out, rub it with a small amount of a leather dressing with the fingers and palm of the hand. In humid weather leather mildews easily. Keep leather as clean as possible and in a dry place. Wipe mildew off (with a damp cloth) promptly, then dry with an electric fan. Leather shoes, handbags and book-bindings as well as leather upholstery need to be kept in a dry place in summer to prevent mildew.

**KEEP HOT THINGS HOT, COLD THINGS COLD**—A hot-water bottle will stay hot, or an ice bag cold, longer if you wrap it in foil. To delay melting ice cubes removed from tray, place cubes in mixing bowl; cover tightly with foil.

rents Mr. and Mrs. L. N. Latham in New Bern Sunday.

Mrs. N. N. Mattocks is spending several days this week with her daughter and family, Mr. and Mrs. George Mewborn in Snow Hill.
