Taking part were Mrs. M. E. Hines for France, Mrs. Nelson Conway for India, Mrs. Marvin Thomas for Great Britain and Mrs. Clifton Pollock for USA.

They gave a thumbnail description of these countries and their fight for freedom. Following the program, Mrs. Bill Parker gave the devotional, and Mrs. Fred Pippin presided over the business meeting.

Mrs. Bec Parker served the 17 members present Russian tea and fruit cake.

The traditional "Star of Bethlehem" program—the version which clergymen, editors and other distinguished people acclaimed from 1949-55—will be presented at the Morehead Planetarium this year, it was announced this week by Manager A. F. Jenzano.

The tribute to Christmas will open Tuesday, November 25, and continue through January 5.

"We will return to our original version this year," Jenzano said, "inkeeping with our objective to present during 1958-59 the Morehead Planetarium's most popular programs during our Tenth Anniversary Year observance."

The traditional program's first part is devoted to the appearance of the heavens almost 2,000 years ago, to "the Star", and to astronomical events known to have oc-

urred in the years about the time of the birth of Jesus.

Only in the Planetarium is it possible to turn back time 20 centuries and present heavenly phenomena which, if seen by the Wise Men, would have seemed a very potent sign of some great event.

In the latter portion of the demonstration, a pageant of great beauty and originality is presented, with the story of the Birth of Jesus told in lights, color and music.

The traditional scriptural readings accompanying the three dimensional tableaux will again be by Dr. Urban T. Holmes, a University of North Carolina professor, as the scriptural narrator.

A star studded background provides an atmosphere of realism and the visible theme of the story.

The closing scene will be the traditional arched cathedral in which the visitors find themselves, with soft light of huge stained glass windows illuminating the scene, while a great choir sings a grand Christmas hymn.

Performances will be given nightly at 8:30 o'clock and at matinees on Saturdays at 11 a.

m., and 4 p. m., and on Sundays at 2, 3 and 4 p. m. At 3 p. m. performance will also be given on Thanksgiving Day.

There will also be 11 a. m. and 1 p. m. performances daily for school children to which the public will be admitted after all children with reservations have been seated.

Tickets or reservations may be obtained in advance by either mail or telephone, and special shows will be presented for the convenience or large religious, civic or industrial groups any day, on request.

Admission to the Morehead Planetarium at all times is 35 cents for children in grades through six, 50 cents for grades seven through college and military personnel, and 75 cents for adults. Clergymen are admitted free at all times, and one chaperone is admitted free with each 10 children or students in attendance.

In addition to the Planetarium program, visitors to the Morehead Building may view without charge the many art and science exhibits which are on display at all times and which are changed frequently.
