Report From Washington

By David N. Henderson

Despite all the recent furor about Federal Aid to education, many people are completely unaware of the fact that we already have in effect three different Federal Aid laws which have poured millions of dollars into the schools of the nine counties of the Third Congressional District.

Public Law 815, provides Federal financial assistance for construction by local educational agencies of urgently needed minimum school facilities in school districts which have had a substantial increase in school membership as a result of new or increased Federal Activities. Public Law 874, provides financial assistance for maintenance and operation of schools in districts affected by Federal Activities. The National Defense Education Act, provides federal funds for guidance and equipment for teaching mathematics, science and modern foreign language.

As of the end of fiscal 1960, Carteret County had received a total of \$736,727.91 under Public Law 815, Craven County \$1,397,724.98 with an additional \$423,681 approved; Onslow County \$2,302,190; and Wayne County \$800,000.00 with an additional \$280,000.00 approved.

Under Public Law 874, for fiscal 1960 alone, net entitlements for the nine counties were: Carteret \$165,120.00; Craven \$325,235; New Bern City Unit \$58,517.00; Duplin \$44,396.00; Jones \$27,667.00; Onslow \$328,011.00; Pam-

lico \$34,441.00; Pender \$33,543.00; Sampson \$5,713.00; Wayne \$180,124.00 and Goldsboro Graded Schools \$73,681.00.

Under the National Defense Education Act in fiscal 1960, Carteret received \$15,325.79; Craven \$17,241.92; Duplin \$24,731.92; Jones \$2,371.44; Onslow \$19,287.83; Pamlico \$18,524.05; Pender \$15,323.92; Sampson \$15,287.86; and Wayne \$21,922.92.

All the County School Superintendents of the District praise all three of these laws and express the opinion that they have been lifesavers to our Schools. They likewise support the general theory of Federal Aid to public schools.

At this time it is impossible to know what kind of Federal Aid Legislation will be reported out of the Committee on Education and Labor and whether it will be as beneficial to the public schools of the Third District as existing laws have been. There is some talk of abolishing Section 2 of P. L. 874, as such, and incorporating aid formerly available under it into a general bill.

I campaigned on a platform favoring Federal Aid to education and have subsequently stated for publication that I still favor it. I have always taken the position, however, that Federal Aid legislation not be accompanied by federal controls or provisions which would destroy our traditional system of educating our children in North Carolina and any bill containing the so-called "Powell Amendment" could certainly do this and I would oppose the same.

It would be a shame to see much-needed Federal Aid legislation die again in this session of the Congress due to certain special-interest groups trying to solve Civil Rights problems and every-

Bible Comment:

Bible Is Book Of Man as Well As Book of God

The Bible is the book of man, even as it is man's book of God.

The universality of the Bible is emphasized in a deeper and more important way in the life and teaching of Jesus.

The locality, the scene, the local manners or customs, may give color to an incident, but they do not affect the heart of the truth. Truth applies equally to every time and place.

This is seen particularly in the Parables of Jesus. The woman searching for a lost piece of silver (Luke 15) might be any woman, anywhere; the Samaritan helping a victim of thieves on the road to Jerico might be a driver of today stopping to aid the victim of a highway accident, while others, like the priest and the Levite, hasten by.

Jesus is for all the truth, because His life and truth were for all the world.

He was not a Galilean provincial, but a Teacher and Savior, with a world mission sending forth His disciples to make disciples of all nations.

thing else in the one package of the federal aid bill.

It is my fervent hope that we in the Congress will have an opportunity to vote on a Federal Aid bill which will prove to be as helpful (and harmless) to the schools in the Third Congressional District as Public Laws 815, 874, and the National Defense Education Act have been. I expect to vote for the Federal Aid Bill if it is one that I believe the people of the Third District would want enacted for the benefit of their children.

SENATOR SAM ERVIN SAYS

WASHINGTON—President Kennedy, at a recent press conference, restated his Senatorial position that he was opposed to federal aid to parochial schools. This is a matter that may be soon debated in the Senate. I should like to state the grounds upon which I join with the President in opposing parochial school aid. The ancestors of most Americans came to this country in order to enjoy religious freedom, which they clearly believed embraced the right not to pay taxes for the direct or indirect teaching of religious doctrines which they disbelieved.

STATUTE OF RELIGIOUS FREEDOM — Their attitude was clearly reflected in the Virginia Statute for Religious Freedom. That Statute declares "that to compel a man to furnish contributions of money for the propagation of opinions which he disbelieves is sinful and tyrannical."

CONTROVERSY — The controversy over aid to parochial schools has been touched off by some Catholic leaders who have called for the inclusion of parochial and private schools in any federal aid program for education. There can be no doubt of the fact that parochial schools constitute institutions of the Catholic Church and teach its tenets and faith.

FIRST AMENDMENT — The First Amendment to the Constitution of the United States declares that "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof." The Supreme Court of the United States has this to say in the *Everson Case*: "The 'establishment of religion' clause of the First Amendment means at least this: Neither a state nor the Federal Government can set up a church. Neither can pass laws which aid one religion, aid all religions, or prefer one religion over another. . . . No tax is any amount, large or small, can be levied to support any religious activities or

institutions, whatever they may be called, or what ever form they may adopt to teach or practice religion . . ."

UNFORTUNATE ISSUE — The states have established public schools for the education of the children of parents of all faiths and support these schools by taxation. It is true, of course, that many parents for various reasons prefer to send their children to private schools or to schools operated by various church bodies. The First Amendment prohibits the use of tax funds to support these church schools, regardless of whether they are established by Catholics, Presbyterians, Methodist, Baptist, or persons of any other faith. It is unfortunate that this religious issue has been injected into the debate over aid to education. All Americans should be interested in the preservation of the religious freedom established by the Constitution.

Special Medical Care For Spanish American Veterans

A reminder to any of the remaining Spanish-American War veterans who desire out patient care from private physicians at Veterans Administration expense was issued today by the Veterans Administration.

Such veterans, J. D. DeRamus, Winston-Salem Regional Office Manager, said should notify the nearest VA Office immediately. For most veterans of this war, the VA can pay for out patient care from private physicians only when it has been authorized by the agency before the treatment is given.

In emergency cases, however, the VA may issue an authorization for emergency non-hospital treatment already given, when the agency is notified by the veteran or his physician, within 30 days
