Take notice that a pleading seek-

ends up as the chief character in the story.

When Una, uninvited and unwanted, arrives on the doorstep, Jerome is annoyed at the intrusion, but Peter and Sylvie look upon her with resentment and profound mistrust. Snowbound for a week, the two men, the girl and dog move toward a climax of warring loyalties.

"No one knows," Miss Godden says, "how much a dog sees — how little or how much." Yet the reader feels Miss Godden knows exactly what Sylvie sees and feels and why she reacted as she did when confronted with a rival for her master's attention and affection.

With cleverness and understanding, the author develops her theme in a novel of tight suspense. When the thaw sets in and communication with the outside world is restored, no one in the household is the same. At the close of *A WINTER'S TALE* one becomes aware of the "astounding dexterity with which she has illumined the ambivalent face of love."

Miss Godden is the eldest of four sisters, one of whom is Rumer Godden, the novelist. Born in Bengal, India, she has spent her life alternately there and in England. She now resides in Kent.

A WINTER'S TALE

by
Jon Godden

New York Knopf 1961

One of the most delightful features of Jon Godden's novels is the skillful use she makes of the "timeless indifference" of nature as a backdrop for violent human emotions. In a *WINTER'S TALE* she uses a snowbound English country side to isolate her characters so that there are no outside influences to stay the inevitable outcome of her situation. The silence, the penetrating cold, the whiteness of the untracked snow, the smell of conifers, all are deftly presented, and the seething emotions of her characters seem all the more potent in contrast.

Three humans and a dog people this novel:

Jerome Holt, a sophisticated author who has amassed enough of this world's goods to be able to maintain his London apartment, a comfortable retreat in the English sheep-country, and his passion for growing orchids.

Una, a young actress who pursues Jerome with complete abandon — sometimes with williness, sometimes with honesty — but always with determination.

Peter, Jerome's man-of-all-work, who has found a refuge from physical and emotional disfigurement in the hideaway, and who tends the house, the orchids, Jerome himself and his dog with jealous devotion.

Sylvie, Jerome's proud, sensitive and possessive Alsatian, who
