We have always associated holly with Christmas. The bright shiny leaves contrasting with the red berries lend color, warmth and meaning.

Perhaps it is not generally known that all sorts of supernatural powers were once attributed to holly.

Table listing property owners and taxes for Chinquapin Township (White). Includes names like Martha Bryant, Johnnie Flowers, Richard Harriston, etc.

This the 6th day of November 1961. Julian D. Waller, Tax Collector of Jones County, Dec. 21, 28, Jan. 4

Donald P. Brock Attorney at Law Trenton, N. C. Jan. 4, 11, 18, 25, Feb. 1, 8 Pd.

This shiny plant was thought to have power to repel lightning. The eastern Indians believed that holly trees planted near the cabin would act as protectors and ward off evil spirits.

Early Christians believed that holly was used to make the crown of thorns for the crucifixion. The plant was then called "righteous branch" or thorn of Christ, for the red berries supposedly symbolized the drops of blood on Christ's brow.

The legend has it in Brittany that when Christ was bearing His cross, a small bird attempted to relieve His suffering by plucking thorns from His brow. The bird's breast became stained with blood and was known ever after as Robin Red-breast.

To this day in England and Germany, it is considered unlucky to step on a holly berry, a favorite food of the robin, in recognition of the bird's charitable act.

Many superstitions existed about bringing in the holly before Christmas. In Wales, if it was brought in before Christmas Eve, it was sure to cause family quarrels throughout the year. The type of holly brought into the household determined who was to dominate during the year.

Infusions, decoctions and fomentations of holly were used for a wide assortment of human disorders. In England, a tea of holly bark was a cure for the cough. In France, a decoction of leaves and bark was considered equal to quinine in the treatment of intermittent fever.

A beverage of the berries pacified the squaws of Cherokees and curbed their urge for wandering. The juice of leaves was recommended as a cure for jaundice and was also good for pain in the side.

Other infusions, decoctions and fomentations of leaves, berries, bark, or combinations, were used for many other human ills — whooping cough, chilblains, tooth ache, kidney ailments and as stimulants for the nerves and brain.

I give credit to the American Horticultural Society for much of the information used. It was taken from a Special Issue of the National Horticultural Magazine entitled "Handbook of Hollies" and compiled by Harry Denlinger. There were 26 contributors, all well qualified by training and experience to speak with authority on the subject.
