

Tasty Mushroom Dish Is Springtime Itself

Blue cheese-mushroom pie is a springtime treat that will be enjoyed by all.

Blue Cheese-Mushroom Pie

BY DOROTHY MADDOX

DANISH BLUE CHEESE AND MUSHROOM PIE

- 1/2 cup Danish blue cheese crumbled
- 1 package quick-frozen broccoli, cooked until tender
- 1 pound fresh mushrooms (about 20)
- 2 tablespoons butter
- 2 tablespoons minced onion
- 1/2 cup milk
- Salt, pepper, paprika to taste
- 1/4 cup melted butter or salad oil (to brush tops of mushrooms)

Wash mushrooms, remove stems, chop stems finely. Saute in butter and onion until tender, but not browned. Season to taste and cool slightly. Blend in milk and cheese; mix well. Pour mixture over broccoli. Stand mushrooms, crowns up, in casserole with broccoli. Brush with butter. Bake in moderate oven (350 degrees F.) 10 to 15 minutes, or until mushrooms are tender. Serve with cheese pimento sauce.

CHEESE PIMENTO SAUCE

- 2 tablespoons butter
- 2 tablespoons flour
- 1 cup milk
- Salt and pepper to taste

Make cream sauce of butter, flour, milk and add 1 cup Danish blue cheese, crumbled. Cook mixture over hot, but not boiling water until cheese melts (about 1 minute). Add 1/2 cup chopped pimento.

LEGAL NOTICES

NOTICE OF SALE NORTH CAROLINA JONES COUNTY

Under and by virtue of an order signed by His Honor Albert W. Cowper Judge Presiding over the November Term of Superior Court for Jones County, the hereinafter tractor, which was seized at the site of an illicit still, will be offered for sale by the undersigned Sheriff of Jones County North Carolina on April 2, 1961 at about the hour of twelve o'clock noon. The property is described as follows:

One Ford Tractor — Serial Number 8N230635 and a farm trailer.

This said tractor and trailer having been sized in the month of July, 1961, at an illicit liquor still and no one has filed any claim of ownership.

This the 13th day of March, 1962.
W. S. Yates
Jones County Sheriff
Donald P. Brock
Attorney at Law
Trenton, N. C.

A new camellia variety, "Brigadoon," is offered by a California nursery.

Brigadoon is the result of a cross using "salvenensis x Princess Baciocchi." This variety is reported as being distinguished by its precocious blooming habit and profusion of extra large fuschia-pink blooms. The flowers have 12-15 petals, delicately scalloped, measuring up to 5 inches across.

An earlier introduction by the same nursery, "Flirtation," is a hybrid from "japonica x salvenensis." This variety is reported as having complete sun tolerance, which makes it especially desirable as a colorful landscape plant.

FROM THE question box: "Someone told me I could control the peach tree borer with DDT. I tried this but it did not work."

There are two species of borers attacking peach trees in North Carolina, both of which can be controlled with DDT. The lesser peach tree borer usually feeds on the limbs, or high up on the trunk, while the peach tree borer usually causes damage near the base of the tree.

The timing of sprays is the key to successful control. It is standard practice for commercial growers to spray the trunks and limbs of trees July 1, August 1 and September 1 with DDT. Parathion and Thiodan may also be used.

The only remedy now is to remove the peach tree borers from the base of the tree. (This method is not practiced for the lesser borer on the limbs.) Remove the soil from the base of the tree, and the gummy exudate. Locate the tunnels, cutting as little as possible, and kill the borers by pushing a

March 27th Meet on Soybean Cultivation To Be Held in Kinston

Interest in soybean production has been gaining in recent years. It appears the interest will continue in 1962.

Some of the reasons being cited for this increased interest is that soybeans are easily mechanized, fertilizer costs are lower than for some other crops and the demand for soybeans has, about kept up with the increased production. How long this will continue is unknown.

Because of the possibilities that soybeans offer to this section, a meeting will be held on Tuesday, March 27, at 7:30 at the Agricultural Building in Kinston. George Spain, Extension Soybean Specialist, will present information on soybean production and market outlook.

All farmers planning to produce soybeans, farm machinery dealers, fertilizer dealers and soybean buyers are invited to attend.

CAR STOLEN
Bernice Sutton Baysden of 207 Rivermont Street, reported to police that her car was stolen Friday night in downtown Kinston. It was a 1954 Oldsmobile and had license Number AN-4541.

Make A New Marmalade

By Betty Barclay
MAKE the most of the citrus crop and make batches of delicious Marmalade. Wonderful for topping on puddings, or ice cream... good idea for a "hostess gift."
Three-Fruit Marmalade
3 cups prepared fruit (1 orange, 1 lemon, 1 small grapefruit); 5 cups (2 1/2 lbs.) granulated sugar; 1/4 bottle Certo fruit pectin.

Remove skins in quarters from the fruit. Lay flat; shave off and discard about half of white part. With a sharp knife slice remaining rind very fine. Add 1 1/2 cups water and 1/2 teaspoon soda; bring to a boil; simmer, covered 20 minutes, stirring occasionally. Chop peeled fruit; discard seeds. Add pulp and juice to undrained cooked rind. Simmer, covered, 10 minutes longer. Measure 3 cups into a very large saucepan.

Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil; boil hard 1 minute, stirring constantly. Remove from heat and at once stir in Certo. Skim foam with metal spoon. Stir and skim by turns for 7 minutes to prevent floating fruit. Ladle into glasses. Cover with 1/2 inch hot paraffin. Makes 7 medium glasses.

flexible wire into the tunnel.
"I WAITED too late to prune my Muscadine vines and they are bleeding. Will this kill the vines?" No. We have no information to show that bleeding is harmful. When the temperature is low, bleeding will stop, and begin again when the temperature rises. When the leaves begin to grow, the bleeding will stop.

IT SEEMS almost impossible to keep an error from creeping into the column from time to time. In the Sunday, March 11, News and Observer fertilizer recommendation for a lawn should have been 35 pounds of 8-8-8 fertilizer per 1,000 square feet instead of 35 pounds per 100 square feet, as given.
