## Jones County To The People Thereof

I hereby give notice that I am a candidate for Clerk of the Superior Court of Jones County. I filed and remain with these sentiments:

You, the people of Jones County should feel honored that all aspirants for this office are qualified on a formal education level. All of us are either college or university educated; adequate education to execute the duties of this office.

I sincerely feel, however, that qualifications for this particular office reach deeper than formal education. They run to the core of human concern of one person for another. Sometimes qualifications run to a man's basic attitude and desire to be on speaking terms with all people at all times. The inherent desire to be of personal service and value to the public as a public servant is also a qualifying point. These qualities should belong to a man always and should not be things for him to borrow for his personal gain. These are virtues of undeniable value and functional pride for any public office.

A legitimate question for you, the voter, is this: Why do you, Walter P. Henderson, seek the office?

My Answer:

I simply and honestly like people and feel with true concern that I will enjoy the work embraced in that office because of its direct service to and personal contact with you, the people. I feel that I am qualified, willing, and will do the work in such a manner that you will be proud of me as a representative of your office. I consider it an honor to ask you to support me with your vote, and through these words hope that you will accept the way I truly feel toward you, your office of Clerk of Superior Court, and your candidates.

I humbly ask for your support with the same humility that I will serve you.

Sincerely,  
Walter P. Henderson
