Sunday School Teachers Meet With Students' Parents

Sunday evening at 7:30, the Methodist Sunday School Teachers of Nursery, Kindergarten, Elementary 1-2, Elementary 3-4, and Elementary 5-6 classes met with parents in the sanctuary of the church to discuss and introduce to them the new type of literature that will be used beginning in September in Sunday School.

Miss Jackie Jones presided, giving scripture readings, followed by prayer. She explained briefly the purpose of the meeting and how the new program is to be carried out.

The teachers then met in their Sunday School rooms with parents and showed them the type of literature that is to be used and explained more fully how they are to participate in this new program.

Afterwards, refreshments of punch and cookies were served in the social room.

Mrs. J. R. Pelletier Hostess to Circle

Mrs. J. R. Pelletier was hostess to the Methodist Lillian Foscoe Circle last Tuesday afternoon.

After opening with the hymn "I Love Thy Kingdom, Lord", Mrs. A. H. McDaniel gave the devotional with scriptures selected from Romans 10. Afterwards, she read a prayer.

Mrs. Pelletier, assisted by Mrs. J. H. Wynn and Mrs. I. F. House presented the program, using the subject, "The Methodist Family." Mrs. Pelletier read a hymn and a question and answer period pertaining to the program was conducted.

Routine business was transacted, deeds were reported and, following the benediction, the hostess served ice cream. Others present were Mesdames Zena Foscoe, C. C. Dameron and one visitor, Mrs. Eddie Dunbar.

Newer Refrigerators Ideal For Homemakers

Do you ever consider the use of your refrigerator? It has been estimated that at least 34 of the food we eat goes through the refrigerator.

Miss Thelma Hinson, home management specialist for the Agricultural Extension Service at N. C. State, says that today's newer electric refrigerators have an assortment of temperatures for a variety of foods.

There are separate zero degree compartments for frozen foods; meat compartments with temperatures lower than other storage space; special holders for butter, cheese and eggs; and vegetable crispers.

Miss Hinson says you should carefully use your refrigerator to maintain quality food.

Follow manufacturer's suggestions for use of these recommendations:

—Loosen wrappings on fresh meats for air circulation; store in meat drawer or coldest part of the refrigerator.

—Leave cured and smoked meats in original wrappings.

—Thoroughly cool and cover

Mrs. Earl Yeoman is spending some time in Orlando, Fla. with her daughter and son-in-law, the Carol Meadows. The Meadows recently welcomed the arrival of another son, Bryan Keith.

Miss Letha Pridgen was here from Trenton recently to visit brother, Roland, and his family, also her sister, Mrs. J. H. Wynn. Mr. Pridgen's condition following a stroke seems somewhat improved.

Mrs. Jimmy Wright joined Mrs. H. L. Humphrey of White Oak and the group from Jacksonville who made a trip to Asheville Sunday where they visited the new library.

cooked foods before storing; this prevents excessive moisture and a mingling of odors.

—Cartons of fresh dairy products should be dried off and stored tightly covered in a cold part of the refrigerator.

—Vegetables stored in a crisper need no wrapping. Line crisper with paper towel to absorb excessive moisture.

—Eggs should be covered to prevent losing moisture through their porous shells.

—Canned foods, salad dressings, jams and jellies once opened should be stored covered in the refrigerator.

—Once melons, pineapple, or citrus fruits are cut, cover and refrigerate.

Miss Hinson says that if you want to have high quality food and satisfactory functioning of the refrigerator, remember to store foods properly, wipe up spills as they occur, and clean the entire refrigerator thoroughly once a week.
