

Should We Elect Our Doctors?

Sure it's a silly question. When you're sick, the best doctor you can find is what you want. Doctors qualified by long and difficult medical education and experience. After all, it's your health we're talking about.

The same applies when you need a lawyer. You want a man whose legal training qualifies him for a license to practice law, to make intelligent decisions about law, justice and freedom.

If that's the kind of lawyer you want, you certainly want the judge to have at least as much experience and legal training. With many years experience as a lawyer and nine years as Superior Court Judge, Howard H. Hubbard is the kind of man you want for judge.

Vote for the qualified man. Vote for Judge Howard H. Hubbard on May 2.

After all, it could be your property or freedom we're talking about.

Re-Elect Judge Howard H. Hubbard
