

Like Many Socially Conscious Organizations,
We Recycle. For Example, We Turned This
Styrofoam Tray Into Self-Esteem.

For some kids, the struggle to stay in school isn't about what's absent from the classroom. It's about what they're missing in themselves. Through CIS, we surround students with an environment that nurtures expression and initiative.

Involving them in art, gardening, or teaching other kids, for instance. Their participation helps young people develop confidence in their abilities and lets them explore areas of interest they may have otherwise ignored.

We're proud of our resourcefulness, but we can always use some help. If your company can volunteer time, materials, or financial support, please call us at 1-800-849-8881. No matter what you give, you'll be surprised by what we can do with it.
