

SCIENTIFIC INFORMATION FOR THE WHOLE  
WORLD.

**CHAPMAN'S GREAT DISCOVERY.**

**THE MONTHLY RAINBOW**, or Chapman's Precalculations for elementary changes, based upon the discovery of the physical laws and harmony of electrical action pervading the solar system, as involved in the differing effects of light modified (or polarized) by differing angles of reflection on a large scale. This important discovery of the laws of nature which regulate the changes of the elements constitutes a subject of magnitude and importance, perhaps unsurpassed by any other on the pages of historic record. The surprising accuracy with which Dr. Chapman is enabled to pre-calculate all elementary changes predisposing more to storms, earthquakes, auroras, &c., and also atmospheric changes within the hour for each day, months in the future, and the physical effects on the health, feelings and humors of mankind, must be admitted by all unprejudiced minds to be of incalculable advantage to the whole human race.

In presenting the RAINBOW to the public, we do not claim it to be an infallible weather guide. But this much we do claim, that it will be found to be correct to the letter, eight times out of every ten. All we ask is a candid examination. Terms of RAINBOW, \$1 per year, in advance, 50 cents for six months.

**CHAPMAN'S PRINCIPAL, or NATURE'S FIRST PRINCIPLES**, cloth binding, 12mo., 200 pages.—Volume first contains a full explanation of the discovery to which Dr. Chapman has devoted the last nine years of close observation. Published every six months, (March and September,) price \$1 per volume, for which it will be sent, post paid, to any part of the country. First volume now ready.
