

**- Not a Sea Horse, but a Tame Mount**

A spirited young Los Angeles swan, who wanted to take his girl friend a-riding, seems to have found the ideal mount in this prize 360-pound marlin swordfish. It was one of the season's largest catches off Santa Catalina Island.

**FARM QUESTIONS ANSWERED**

**Question:** How much fertilizer should I use on my tobacco plant bed?  
**Answer:** An application of 200 pounds of a 4-8-3 mixture should be applied to each 100 square yards of bed. If a lower grade of fertilizer is used it can be supplemented with from 50 to 100 pounds of cotton seed meal provided the meal is thoroughly mixed with the soil. All fertilizer should be broadcast and mixed thoroughly with the top three or four inches of soil. Do not use tobacco trash on the beds nor any manure containing tobacco leaves, stalks, or roots.

**Question:** How can I keep my chickens from picking out their feathers?  
**Answer:** This trouble is caused by a small mite that gets into the skin near the base of the feathers and causes irritation. To get rid of this mite the poultry house should be thoroughly cleaned and sprayed with a solution of three parts of crude petroleum or carbolineum and one and one-half parts of kerosene. Dip the birds in a tub containing two ounces of flowers of sulphur and six ounces of flaked soap to five gallons of tepid water. Be sure that the solution gets to the skin.

**Question:** Should the grain ration of my dairy cows be increased during the winter months?  
**Answer:** This depends upon the quality of hay and the present milk production. Each animal should have about three pounds of silage each day for each 100 pounds of live weight and all the legume hay she will consume in two feedings. When the quality of hay is poor, more grain will be required. However, no matter what amount is being fed, if the milk production remains normal then the feeding should not be increased. Extension Circular 193 gives the grain rations for different breeds and amounts of production. This circular will be sent free upon application to the Agricultural Editor at State College.

**THREE CLUBBED TO DEATH AS WITCHES**

**Father, Mother And Daughter Set Upon By Man In Cuban Province —Attacked Before.**  
 Manila, Dec. 31.—Suspected of practicing witchcraft, a father, mother and daughter were beaten to death in a northern Mindanao village recently, the Philippine constabulary learned today.  
 Victims of the triple slaying, which occurred December 22, in the village of San Roque, were Santiago Vite, 50; his wife, and their daughter, Isabel, 12.  
 Hated by the villagers, who thought they were witches, the Vite family lived in isolation. A gang of men fired their house a week ago Sunday but the family escaped. The men then set upon them with clubs.  
 The constabulary reported leaders of the gang had been arrested. Others were trailed through the mountains.
