It is now probable that Congress may raise the money for the payment of the bonus by the issuance of "baby bonds" that will be for that direct purpose.

All who are entitled to share in the bonus will be paid in bonds. If they care to they can cash the bonds at their face value, or they can hold them and get three percent interest.

This plan would lessen the possibility of currency inflation. The plan is good in that the money now on hand with the government will not be subjected to further strain.

All Americans are afraid of inflation. They have seen what happened to other countries who tried it on a large scale.

By the use of these bonds, not as much ready cash would be required. Thousands of veterans would rather keep the bond than to get the money when they didn't need it.

We understand there is no longer an AAA organization. Much has been said about the Supreme Court's recent decision that meant death to the organization.

Frankly, we don't understand half of what we have read concerning the decision of the Supreme Court. We have been to Washington and heard others talk about the matter and don't yet know very much more.

Here are a few of the important facts that were established. Taxes for Agriculture. The Agricultural Adjustment Act is a statutory plan to regulate and control agricultural production.

To forestall any suggestion to the contrary, the 10th Amendment was adopted. The same proposition, otherwise stated, is that powers not granted are prohibited.

"It is an established principle that the attainment of a prohibited end may not be accomplished under the pretext of the exertion of powers which are granted."

It was also pointed out that the Department of Agriculture was using the AAA to coerce the farmers into signing the agreement. It was coercion by economic pressure.

eral funds submission to Federal regulation of a subject reserved to states.

That Congress cannot invade state jurisdiction to compel individual action; no more can it purchase such action.

To be brief the AAA was found to be illegal because processing taxes are a misuse of taxing power. If you do away with processing taxes AAA is still illegal because its system of crop contracts is the use of economic coercion.

BLANKS APPOINTED REHABILITATION SUPERVISOR FOR PERSON COUNTY

Presents First Clear Picture of What Resettlement is Doing in This State.

The first regional pamphlet describing resettlement and Rehabilitation activities has just been issued from the Division of Information of the Resettlement Administration's regional office, Raleigh, North Carolina.

Mr. J. Y. Blanks, who is Rehabilitation Supervisor for the Resettlement in Person County presented this newspaper with a copy today.

In addition to giving the origin, background and purpose of the Resettlement Administration, the booklet gives a rather thorough explanation of rehabilitation and resettlement which are two major phases of the Resettlement Administration program in North Carolina, Tennessee, Kentucky, Virginia and West Virginia, the states comprising Region IV. It also tells who is responsible for the program, outlines the activities and projects which have been started in this region.

"More people will be reached immediately under the rehabilitation phase than the resettlement phase," the booklet states.

Figures are given in the booklet showing the breakdown by states of Rehabilitation families being cared for, the total quota for Region IV being 51,000 families. While quotas are not listed by countries, Mr. J. Y. Blanks, resettlement supervisor, stated that a quota of 228 rehabilitation families has been assigned to Person County.

Under the rehabilitation program loans and practical supervision are extended for the purchase of seed, fertilizer, and equipment to enable improvised farm families to get on their feet again. These are the families who are in an emergency situation and must be given a chance to help themselves immediately. The booklet described the method by which these rehabilitation families are assisted. The resettlement phase is described as a more permanent part of the program. It is based on the fact that "There is plenty of good land and that it is a social and economic waste to continue to cultivate unprofitable acreage."

As to the Rural Resettlement Community Projects, the booklet states that plans have been prepared and submitted to the Administrator for forty-two Agricultural Resettlement Community Projects for Region IV involving 219,121 acres of land and construction of 4,296 farmsteads; and that preliminary approval has been given on twelve of these projects comprising a total of 70,868 acres and providing farmsteads for 1,595 farm families, and the employment, during the period of construction, of an average of 6,225 laborers.

Mention is made of the new Farm Tenant Project, Community and Cooperative Service, and Farm Debt Adjustment Activities, all of which are a part of the Resettlement Administration's program. Copies of the 14 page booklet may be obtained by writing to the Division of Information, Resettlement Administration, Raleigh, N. C.

SIX THOUSAND OLDS MECHANICS TO GO TO SCHOOL IN JAN.

Beginning in January, 1936, more than 6,000 service mechanics employed by Oldsmobile dealers are "going to school." At the end of six months all those of the 6,000 who have a percentage of 80 or better will be awarded a certificate entitling them to membership in the Oldsmobile Master Mechanics Club and a club lapel pin, announced J. J. Dobbs, General Service Manager of Oldsmobile.

Schools will be in the dealer's place of business and supervised by the factory service organization. For each of the six months, a set of 20 questions will be answered by the 6,000 men. The questions cover details of Oldsmobile engineering and service operations that mechanics encounter daily as a part of their regular work.

In addition to the club membership certificate and club pin, the factory offers twelve prizes monthly to the 12 service mechanics who obtain the highest percentage in
