

Clyde 'Jack' Oakley To Meet Bill Brooks Friday, February 7

Five Bouts to be staged at new Arena at 9:00 P. M. "Wild Bill" Howard to Meet Mickey Finnegan of Charlotte.

The main boxing bout of February 7th will be between Clyde "Jack" Oakley of Roxboro and Bill Brooks of Raleigh. Brooks will come to Roxboro with a high rating and it will be up to Oakley to take him down a peg or two.

"Wild Bill" Howard is slated to meet Mickey Finnegan of Charlotte. Finnegan has been boxing for a number of years and indications point to a busy night for Howard. "Soda Water" Joe King, one of the up and coming boxers of Roxboro, will battle George Neaman of Durham. King gets better with each fight and may soon get in a class of his own.

Basil Young is also on the program, and Young is also getting better each time.

Oakley and Young won decisions in Durham last Friday night. King fought to a draw, but the Roxboro boys proved that they could fight like men.

Here's the complete card: (4 2-minute rounds)
Robert Pugh (136 lbs.) Roxboro vs. Charlie Gentry (136 lbs.) Jalong

(4 2-minute rounds)
Joe King (134 lbs.) Roxboro vs. George Neaman (136 lbs.) Durham

(4 2-minute rounds)
Basil Young (150 lbs.) Roxboro vs. Louis Stone (146 lbs.) Durham

SEMI-FINAL (5 2-minute rounds)
"Wild Bill" Howard (149 lbs.) Roxboro vs. Mickey Finnegan (145 lbs.) Charlotte

MAIN BOUT (5 2-minute rounds)
Clyde "Jack" Oakley (148 lbs.) Roxboro vs. Bill Brooks (147 lbs.) Raleigh

Time—9 P. M.
Admission: General: 25c
Ringside: 25c

The Davidson Mutual Farm Exchange did \$56,805.67 worth of business in 1935 which is an increase of \$10,311.12 over that of 1934.

Flock records on 65,237 hens in Burke County for December show that each hen made a profit of 12 cents above feed cost during the month.

Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

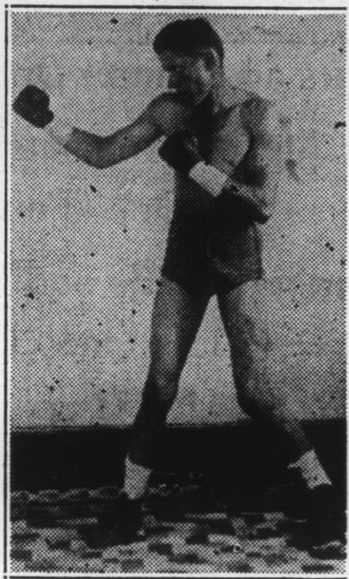

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store—simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this—and see that you get what you want.

Bayer Aspirin

POWER LINEMEN BATTLE STORM

Electric Service Maintained Despite Severe Damage by Rain and Wind.

Described by Carolina Power & Light Company officials as one of the most severe and damaging rain and wind storms experienced in this territory in recent years, the gale of Sunday, Jan. 19th, which reached hurricane like proportions in havoc with lines and other transmission equipment. In some areas, where the wind was most severe, the damage was so heavy as to threaten the serious crippling of some localities, created considerable the company's service which was only maintained by heroic day and night efforts on the part of line forces. In a few instances, damage was great as to interrupt service temporarily, however, repairs were quickly made to prevent inconvenience to those dependent upon electric service for lights and other uses. "Our lines were badly damaged by the storm," declares P. L. Cashwell, District Manager of the Carolina Power & Light Co., "however, like all private public utility companies, we are constantly prepared for such emergencies, as we are schooled in the idea that 'service must go on regardless of the elements or other destructive forces,' therefore, our line crews were on the job within a few minutes after the first report of damage. While many of our men were off duty when the storm came, they responded to the call and within a short time our full force was busily engaged in repairing the havoc wrought by the unexpected blow."

"As rapidly as the rain and wind caused damage, a crew of our men were on the scene to replace the harm. Only in very few instances was service interrupted for any length of time and, in these unusual cases, where the damage was to great to be remedied quickly, service was largely restored within a few hours time. It is impossible to estimate the actual cost of the damage," states Mr. Cashwell, "but it will run into thousands of dollars

throughout our territory." "Few people realize the dangerous tedious work our line forces are called upon to perform during such emergencies" says Mr. Cashwell, "and is only through military like organization work that our forces can be quickly marshalled and put into the field when such situations arise. Scores of our line-men, under the leadership of capable Foremen, worked 36 hours without stopping in their effort to correct the damage Jan. 19. This work was carried on under adverse conditions as repairs were made in the midst of the storm with cold rain and strong wind handicapping every move so that the public might be served with a minimum of inconvenience.

"In some sections, where our transmission lines run through low country, our men were forced to wade waist-deep to make repairs," declares Mr. Cashwell, but this did not impede their efforts. One of our crews near Goldsboro was reported to have actually had their clothing frozen stiff while working under such conditions. While the majority of the people enjoyed a restful holiday and a good night's sleep in their comfortable homes, our men were battling the disagreeable elements to maintain the company's reputation for service and these men deserve the highest praise."

Mr. Cashwell, as well as Mr. Bryan, foreman of the Company line forces in this district, and his crew composed of Ray Jackson and Nelson Williams are to be congratulated on the splendid public verity of the storm, electric service rendered. Despite the so essential to countless homes, stores and industries in the Carolinas, was maintained without interruption for the most part and, where serious damage occurred, was fully restored in less than 36 hours which allowed the business and factories to start operations Monday as if nothing had happened over the week-end.

LESPEDEZA SEED TIME IS HERE

Lespedeza Offers Great Promise to All and Can be Used to Great Advantage.

The best time to seed Lespedeza is during the month of February. Too many farmers neglect this important phase of farm management until it is too late to secure seed from the farmers in their communities or from the local merchants who supply Lespedeza seed.

Lespedeza still offers a great promise to all of the doubting Thomases who for various and sundry reasons have not seeded Lespedeza on their farms in a crop rotation with corn and wheat.

Lespedeza still promises 100% increase in corn yields and a considerable increase in wheat yield if a crop is turned under every three years.

Statistics show that in Stanley County where Lespedeza has been growing for 15 years that the percentage on the Relief Rolls was only 10% of the farm population, while it was 80% to 90% in a nearby county where Lespedeza has not been planted generally by the farmers.

Person County farmers need to sow 10,000 acres this year. Approximately 4000 acres were seeded in 1935. Let us make it 10,000 acres this year.

SYLVIA SIDNEY REVEALS BREAK-UP OF MARRIAGE

Hollywood, Jan. 21—Sylvia Sidney, dark-eyed film actress, confirmed today the break-up of her marriage of four months to Bennett Cerf, New York publisher.

"We decided to call it quits when I last saw him, last week in New

DOCTORS KNOW

Mothers read this:

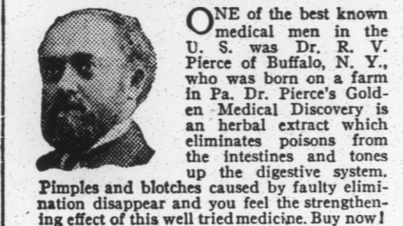

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use a liquid laxative.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. Reduced dosage is the secret of any real relief from constipation.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—both natural laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated doses till Nature restores regularity.

A FARMER BOY

ONE of the best known medical men in the U. S. was Dr. R. V. Pierce of Buffalo, N. Y., who was born on a farm in Pa. Dr. Pierce's Golden Medical Discovery is an herbal extract which eliminates poisons from the intestines and tones up the digestive system. Pimples and blotches caused by faulty elimination disappear and you feel the strengthening effect of this well tried medicine. Buy now!

21 MEN ON DEATH ROW AT PRISON IN RALEIGH

Raleigh, Jan. 21—Twenty-one men, six short of the all-time record, are on death row at central prison under sentence to die for

capital crimes.

Warden H. H. Honeycutt said one other man removed from death row recently by court order still is under sentence to die, making 22. Of the 21 men actually at central prison, 15 are to die of lethal gas, while seven are to be electrocuted.

Willie Lee Gallman and William Abraham Hodgkin, Negroes convicted of murder last week in Forsyth county, are the latest arrivals. Gallman, the warden stated, has appealed to the supreme court. Both are to die by gas.
