**Miss Bailey
Entertained**

The members of the Ace High bridge club and several additional guests were entertained by Miss Lottie Bailey Tuesday night at her home on Court street.

The living room was unusually attractive with a profusion of hyacinths, jonquils and ferns. Quite a number of progressions were enjoyed during the evening. Club high score prize was won by Mrs. Russell Murray. Club low score prize went to Miss Louise Pulliam, while visitor's high score prize was awarded to Mrs. E. E. Thomas.

The St. Patrick idea was carried out by the hostess when she, assisted by Mesdames Stonewall Jackson and K. E. Paylor, served her guests a salad course and delicious lemon custards.

Those enjoying the affair were: Mesdames Victor Satterfield, Riley Oakley, Russel Murray, McIver Featherston, Joe Guffy, E. E. Thomas, David Carver; Misses Louise Pulliam, Rosa Yarborough, Mamie Love Barnette, Ernestine Wilkerson and Bivins Winstead.

**Miscellaneous
Shower Is Given**

As a courtesy to Mr. and Mrs. Jasper Whitfield, a miscellaneous shower was given by Mrs. Marvin Clayton at the home of her parents, Mr. and Mrs. W. A. Hicks, on Saturday night of last week.

A number of games and contests were enjoyed during the evening. Following these the bride and groom were directed to the dining room where an attractive array of gifts were presented them.

Miss Nettie Oakley assisted the hostess in serving refreshments to the following guests: Misses Jewel Averette, Lessie Oakley, Annie Thomas Oakley, Sue Whitfield, Emma Whitfield and Mary Whitfield. Messrs. Melvin Oakley, Osborne Oakley, Jr., Johnnie Oakley,

Dan Rogers, Hubert Hicks, Charlie Daniel, Robert Daniel, John Whitfield, and James Garrett; Mr. and Mrs. Frank Oakley, Mr. and Mrs. Hoke Day, Mr. and Mrs. Talmage Daniel, Mr. and Mrs. Raymon Daniel and Mr. and Mrs. Raymon Oakley.

**Business Woman's
Circle Meets**

The Business Woman's Circle of the First Baptist church had its regular monthly meeting at the home of Mrs. J. J. Woody Monday afternoon.

The program for the day was in charge of Miss Inda Collins. Devotional exercises were followed by the business session.

"Thy Kingdom Come" was the topic discussed. Mesdames George Thomas and Wallace Woods and Miss Maude Montague gave interesting papers in line with the subject.

The hostess, assisted by little Misses Barbara Jane Woody and Ann Briggs Moore, served delicious ice cream and cake to the guests. Others present were: Mesdames H. A. Clay, W. K. Moore, E. M. Bailey, Victor Satterfield, Dewey Young, C. B. Mooney, C. L. Abernathy, and T. B. Brooks; Misses Mabel Montague, Sue Bradsher and Nina Rogers.

The next meeting will be held on April 13, with Mesdames Victor Satterfield and E. M. Bailey as joint hostesses.

**TAKE CARE OF CHICKS
TO SUCCEED WITH HENS**

The future success of the poultry flock depends a great deal upon the care and management of growing chicks in the spring.

Give them proper care, said Roy S. Dearstine, head of the poultry department at State College, and they will grow into strong, vigorous, profitable birds.

Some of the fundamentals to observe while the chicks are young were pointed out as follows:

Do not overcrowd. See that there are not more than two chicks for each square foot of floor space in the brooder house.

Provide two half-gallon drinking founts for each 100 chicks. One five-foot mash hopper will be enough for each 100 chicks during the first three weeks.

From the age of three weeks until they reach broiler size, each 100

chicks should have two mash hoppers four inches high, six inches wide, and five feet long.

Inadequate feeding and drinking facilities is one of the worst faults in poultry raising.

Have adequately controlled ventilation. More chicks are killed or weakened by overheating than by chilling.

Keep the feed hoppers filled with a well balanced mash.

Aim to have the chicks consuming about equal parts of mash and scratch feed at the sixth week.

Maintain rigid sanitation.

Cull all slow developing chicks. These seldom "come through" and prove profitable.

When the weather permits, get the chicks out on the ground. A great deal of benefit is gained from sunshine, green feed, and fresh air.

Yancey County farmers purchased cooperatively 5,000 pounds of lespeza seed for planting this spring.

NOTICE OF SALE

Under the authority conferred upon me as commissioner in the court's order of sale dated March 11th, 1936, in that special proceeding in the Superior Court of Person County entitled "The Board of Commissioners of Person County versus Banaam H. Hobgood," I will sell at public auction to the highest bidder for cash at the courthouse door in Roxboro, at twelve (12) o'clock M., on

MONDAY, APRIL 13th, 1936
two tracts of land belonging to Banaam H. Hobgood described as follows:

TRACT NO. 1. Located in Mt. Tirzah Township, Person County, North Carolina, known as the home place of Banaam Hobgood and containing 11 acres, more or less, bounded on the North by Jasper Oakley, on the East by Jasper Oakley and C. G. Humphries, on the South by C. G. Humphries and on the West by Jasper Oakley. One acre of said land was conveyed to Banaam Hobgood by deed of Thomas H. Hobgood and 10 acres of same

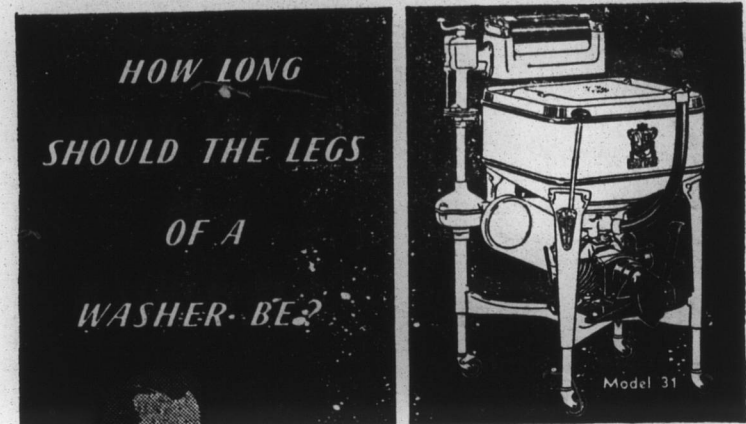

was devised to Banaam Hobgood by the Will of Thomas H. Hobgood recorded in the Clerk's office of Person County in Will Book 20, page 520. Upon said tract of land is located the residence of Banaam Hobgood.

TRACT NO. 2. Located near the first tract in Mt. Tirzah Township, Person County, North Carolina, and containing 12 acres, more or less, bounded on the North by Martha Ann Bowling, on the East by Ed Oakley, on the South by C. G. Humphries and on the West by Jasper

Oakley and C. G. Humphries. See deed from Parthenia Hobgood et al. recorded in the Register's office of Person County in Book 00, page 35, for metes and bounds description.

Said two tracts of land will be first sold in separate parcels and then as a whole and sale confirmed, barring an upset bid, to the manner of sale producing the highest sale price.

This March 11th, 1936.
R. P. BURNS,
Commissioner.

HOW LONG SHOULD THE LEGS OF A WASHER BE?

Lincoln said: "A man's legs should be just long enough to reach the ground." A washer, however, should be adjustable in height for a short or a tall woman, and so that all four legs will set solidly on an uneven floor. All four legs of the Maytag are adjustable independently of each other. This is typical of Maytag engineering throughout—one of many reasons for its greater convenience and washing ability.

*** TOBACCO FERTILIZERS MADE OF NATURE'S TREASURED PLANT-FOODS**

FROM THE SEA

WE use tons of fish scrap in Robertson's Proven Fertilizers and the manure of fish-eating birds. They supply plant-foods in forms no chemist can imitate.

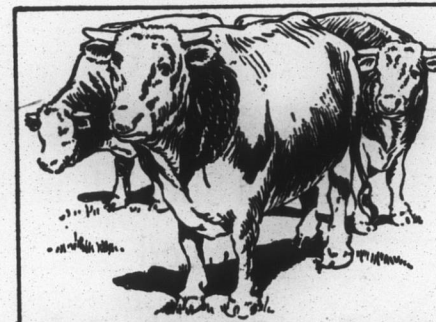

FROM THE SOIL

COTTONSEED-meal, rich in Nitrogen, Phosphoric Acid and Potash, is generously used in Robertson's Tobacco Fertilizers. It nourishes the crop constantly.

FROM THE MINES

THE bones of prehistoric animals are mined and turned into superphosphates to supply the phosphoric acid that crops need.

FROM PACKING PLANTS

IN blood and tankage are recovered the elements that grew the feed for livestock. We use them regularly in Robertson's Fertilizers.

DON'T TAKE CHANCES. USE THESE MAGNESIA-RICH—THOROLY CURED—BETTER INGREDIENT—FERTILIZERS

To prevent damage to the leaf from frog-eye and sand-drown, we use large quantities of Sulphate of Potash Magnesia. We put in Muriate to give body and weight. Then we add dolomitic

limestone and "cure" the mixtures. This makes the magnesia available. Our Tobacco Mixtures contain one-half organic nitrogen and one-half mineral—proven best by years of test.
