ROXBORO — NORTH CAROLINA

Health Nurse, introduced Dr. Richardson, Health Officer of Orange-Person District. Dr. Richardson congratulated the association in their work of aiding the school to become a Standard Elementary school. Dr. Richardson very interestingly spoke on the Importance of Pre-School Children Check-up. The eye defects corrected, the importance of teeth inspection, and giving proper attention to examination of tonsils, and immunization against diseases, sunshine and proper rest, nutritive foods, all are important for the child's health, and his proper development physically and mentally. A pre-school clinic will be held next week. We hope all

parents will see that their children are examined.

The Parent Teacher Association will meet again the first Monday in May. This will be the last meeting of the school year.
