

Moriah, Helena & Bahama Win Sat.'s Games In Church League

Humphries, of Moriah, Struck out 21 Men. Holsenback, of Helena Whipped 12 Men in Contest.

Moriah defeated Rougemont 5 to 4 Saturday in the feature game of the Bahama church league, while Helena was winning over Tabor by the count of 11 to 5, and Bahama topped Sylvan in a slugfest 20 to 16.

Humphries, pitching for Moriah, led the hurlers in strikeouts by whiffing 21. A. Fowler for Tabor and Holsenback for Helena also worked well, each allowing only seven hits and striking out 12 and 15 respectively.

Stevens Tops Hitting

Stevens slammed a homer and a three-bagger to top the slugging, while Sanford, T. Hunt, Mack, Pope, Meadows, E. Blalock and S. Hunt led their respective teams in base hits.

The schedule for next Saturday: Helena at Moriah, Sylvan at Tabor, and Rougemont at Bahama.

Standing of Clubs

Club	Won	Lost	Pct.
Helena	2	0	1.000
Moriah	2	0	1.000
Bahama	1	1	.500
Sylvan	1	1	.500
Rougemont	0	2	.000
Tabor	0	2	.000

Box scores:

Rougemont	200	100	100	—4
Moriah	000	041	00x	—5
Sylvan	441	610	022	—16
Bahama	200	703	022	—20
Helena	000	232	004	—11
Tabor	001	040	000	—5

FARMERS MUST ACT TO EARN PAYMENTS

Soil Improving Crops to Take Place of Tobacco, Corn, Peanuts.

Farmers in other parts of the United States who normally plant a larger percentage of their farm acreage in soil improving crops than do farmers of North Carolina will likely share to a greater extent in the proceeds of the farm program if North Carolina farmers do not act at once to comply with the new program.

This is the opinion of E. Y. Floyd, tobacco specialist at State College, who says that North Carolina farmers may offset this seeming advantage of other sections by replacing cash crops such as tobacco, cotton and peanuts with soil improving crops.

There is still some doubt in the mind of many farmers as to how to proceed to cooperate. The first thing to do, Floyd says, is to fill out a work sheet in which is listed the acreage of all crops grown on the farm in 1935, the acreage of each and other information about the farm. The second step is to work with the community committee to determine the soil-depleting base on each farm. Then soil-conserving crops must be grown on a part of this soil-depleting base. Fourth, soil building practices must be followed to earn the class 11 payments.

As a fifth step, the farmer makes a formal application for payment for what he has done, and finally

Joseph Paul-Boncour (left), minister without portfolio, and Marcel Regnier, former Minister of Finance, still in doubt as to inclusion in new Blum cabinet.

his farm is checked to determine whether the conditions for payment have been met.

Floyd points out that only one payment will be made under the new program and this will include both oil-conserving and soil building payments. This payment will be made as promptly as possible after conditions have been met by the farmer. Since May 31 has been set as the last date for county agents to receive work sheets, Floyd urges prompt action in taking this first step towards cooperation with the program.

POU WINS PRAISE IN AUDITOR'S RACE

Minister Pays High Tribute In Recent Letter.

One of the finest tributes paid any candidate for State Office was paid Geo. Ross Pou of Raleigh and Smithfield, by a minister who has known him since his boyhood. The tribute was in the form of a letter written by the Rev. E. D. Dodd of Creedmoor, pastor of the Methodist church there, and the letter was addressed to Mr. W. S. Penn of Clayton, Mr. Penn being one of the Pou supporters. Rev. Dodd says:

"I have received with profound pleasure the announcement of Geo. Ross Pou's candidacy for the office of State Auditor. You may be sure that I shall welcome the opportunity of voting for him, and rendering him the very heartiest support possible for me under the circumstances.

Being myself a native of Johnston County, I have watched with particular pride George's development into sturdy manhood. First, as a very young man, he evinced the keenest interest in the civic, educational, and spiritual betterment of his home community. Everyone looked to him as a logical leader in any forward-looking movement. His was an unwavering love for, and service to, his people. I recall his volunteering for service in the World War, although married.

I can assure you that I know of no man in public life today more fitted in every respect to serve our people as State Auditor than Geo. Ross Pou. Our State can ill afford to be without his unselfish services at this time."

MANY ACCIDENTS DON'T HAPPEN

Are Caused by Improper Lubrication or Lack of Lubrication.

In a recent interview, H. P. Hobart, General Manager of Gulf's Lubricating Sales Department, used a report of the Pennsylvania Department of Revenue to substantiate his belief that many accidents are caused by improper lubrication or by the lack of lubrication. In analyzing

this report, Mr. Hobart said, "Out of 80,488 motor vehicles involved in accidents, over 90 per cent were apparently in good condition. The condition of drivers in approximately 40 per cent of the accidents was apparently normal. From these facts the conclusion may be drawn that accidents involve machines which have some mechanical imperfection, even though they may appear to be in perfect condition."

Many persons who are driving what they consider to be safe cars are really chaffering vehicles that are accident hazards. The lack of proper lubrication, or improper lu-

brication, causes concealed parts of the steering mechanism, shackle bolts, drag links, and wheel spindles to become so worn that a sudden turn or bump in the road may cause them to snap. When such an event occurs, the driver is left to bring back to control a vehicle that threatens to involve itself, as well as others, in a serious accident.

Do your part to reduce accidents in Roxboro. If your car has not been lubricated recently, perhaps you, too, are unknowingly driving an unsafe car. Play safe—Lubricate for Safety!
