Take a drive in our "Scottie Demonstration Car"

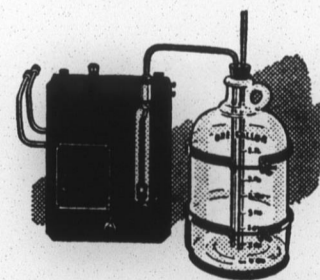

See the New Gasoline Economy of the FORD V-8—demonstrated before your eyes!

WE have painted up a "Scottie Car" simply to demonstrate the increased mileage of this new 1936 Ford V-8.

It is not a "special" Ford car. It is a regular 1936 stock model Ford V-8 with distinctive exterior decoration and a glass gallon jug connected with a Zenith tester. No adjustments have been made to make it perform differently from any new stock car. The jug is added so that you can see a measured amount of gasoline used with your own eyes, instead of having it come from the tank at the rear.

Take a ride in a "Scottie Car." See for yourself that a Ford V-8 is just as economical on gasoline as smaller, less powerful cars. You can arrange it without cost or obligation. Call **YOUR FORD DEALER**

20 miles per gallon at 40 miles per hour constant driving speed — see it for yourself with this glass measuring tank.

BIG DEAL BY PHONE

New York City — A trans-Atlantic phone call costing \$51 closed a deal by which American investors liquidated a stake of \$100,000,000 in the late Ivar Krouger's crumbled match combined in exchange for \$12,776,079 in cash. This will enable the receivers in this country to disperse a 10 per cent dividend to the unfortunate American investors in the Swedish "match kings" enterprises.
